

Tudors and Stuarts

The Great Plague

Make your own plague posy:

- You will need:
 - 3 circles of tissue
 - white
 - dark green
 - light green
 - different coloured crepe or tissue sheets

- Method
 - Place the three circles together one on top of the other with the white one at the bottom
 - Fold them into a cone shape
 - Wrap a narrow piece of sellotape round the tip
 - Open out the cone
 - Tear up pieces of coloured tissue or crepe paper & screw them into little balls
 - Glue these into the cone to like like a posy of flowers
 - If you like you can tie a ribbon round the base.

Of course you could make it with real flowers – lavender & rose with some herb leaves would make a lovely scented posy. You would need to use damp cotton wool and cellophane or foil for the base instead of tissue paper.
