

Collecting For Get Kids Going! Made Easy!

www.justgiving.com

1. Individual Fundraising Website

Get Kids Going! works in partnership with justgiving.com. This means our runners can set up their own fundraising web page to collect donations from their friends and family all on-line! All you have to do is go on to www.justgiving.com. You can set up your page and email all your potential sponsors/donors to ask them if they will kindly sponsor you. It's quick, easy and great fun as you can keep your supporters up to date on how your training is going, how the marathon went and thank them for their kind support. You can even put your own photo on your site! With your justgiving.com page you can keep up to date on how your fundraising is going and also you can keep your page open for up to 2 months after your run! By using Just Giving it has helped many of our runners raise their fundraising targets and sometimes even more!

Any donations that are made on your web page will be transferred directly into the Get Kids Going! bank account within 10 working days. We are unable to send any receipts for Just Giving donations as you receive email confirmation whenever a donation is made which you then have the option to print off and keep. Just Giving does allow you to print a statement of your total donations from your web page at any time. We will, however, be pleased to give you a receipt for your total donations raised if you would like one. Just contact our Accounts Manager on the email – info@getkidsgoing.com or give them a ring on – 0207 481 8110. They will be very happy to help.

2. Team Fundraising Website

It is also possible to set up a team website from which you and fellow team runners can collect sponsorship together. Unfortunately, when team websites are set up, we only see the name of the creator on our statements and not the individual team members. For this reason, if you have set up a web page for more than one runner and you would like the donations to be split equally, **you must inform our Accounts Manager immediately you have set up your web page.** If you do not do this then your donations will not be split and may cause problems for those wishing to claim cost rebates for marathons like New York or Paris. So do tell our Accounts Manager immediately if you are setting up a Team Webpage. Thank you.

3. Gift Aid

Sadly, we can not include the Gift Aid amount you may accumulate towards your fundraising target as the Inland Revenue do not automatically allow us to have all Gift Aid. So, we can only count it as an extra for the charity IF we are able to claim it.

4. Commission Charged

Also, sadly, Get Kids Going! is charged commission by Just Giving on donations from Overseas donors who give donations in foreign currencies and on donations made from people who do not tick the Gift Aid box. So, if you have a very kind donor who wishes to give you a donation in a foreign currency or someone who cannot tick the Gift Aid box, please ask them to post a cheque, made out to Get Kids Going!, to you rather than donate it through Just Giving. You could then send the cheque to us at the Get Kids Going! office. We are able to accept US Dollar Cheques and Euro Cheques without incurring commission if you send the cheque to us direct. Thank you.

If you need any help or have any questions about Just Giving do give our Accounts Manager a ring at the Get Kids Going! office on 0207 481 8110, you are welcome.
