Notes:

Cells in this table have been randomly adjusted to avoid the release of confidential data.

A dependent child is a person in a household aged 0 - 15 (whether or not in a family) or a person aged 16-18 who is a full-time student in a family with parent(s).

** For the Census; part-time is defined as working 30 hours or less a week. Full time is defined as 31 or more hours a week.

*** For the purposes of this table; a lone parent is defined as a parent with a dependent child living in a household with no other persons (whether related to that dependent child or not). This definition is to be distinguished from the standard definition of a lone parent used in other tables.
