

Bracknell Forest
SAFEGUARDING BOARD

Multi-Agency Safeguarding Arrangements

(In accordance with Working Together to Safeguard
Children 2023 and the Care Act 2014)

September 2025

Foreword by statutory partners

The publication of these new multi-agency safeguarding arrangements (MASA) marks an important stage of development within our local partnership and sees significant changes to our existing arrangements. We build on strong foundations that exist in all areas of safeguarding and by aligning the work undertaken to safeguard children and adults we aim to ensure robust arrangements to keep vulnerable people safe regardless of their age.

Our MASAs ensure our statutory duties set out within The Care Act 2014 are discharged and are managed alongside the requirements set out within Working Together to Safeguard Children 2023.

In adopting these arrangements, we seek to maximise the effectiveness of efforts to safeguard children and adults and build on the ethos of our approaches to family safeguarding. Importantly, the MASAs further strengthen the support afforded to vulnerable young people as they transition into adulthood. Our approach also enables us to maximise the efficiencies of undertaking some functions across a wider range of local organisations, as well as those enabling safeguarding activities over a larger geographical footprint.

The approach we have endorsed ensures a clear focus on the protection of children but continues to support partnership working that safeguards all vulnerable members of our communities regardless of their age.

1. Introduction

The Bracknell Forest Safeguarding Board (BFSB) is committed to protecting the welfare of children, young people, and adults at risk across Bracknell Forest. As an all-age safeguarding board, we operate under the *Working Together to Safeguard Children 2023* statutory guidance and the *Care Act 2014*. Our multi-agency safeguarding arrangements (MASA) aim to ensure collaboration between all relevant partners to safeguard individuals of all ages, enabling them to live safe, healthy, and fulfilling lives.

The MASA framework provides the structure through which we work together to meet our legal duties, safeguard children and adults, and ensure that every agency is accountable for their role in preventing and responding to harm.

2. Key Requirements of Working Together to Safeguard Children 2023

The *Working Together to Safeguard Children 2023* guidance sets out critical responsibilities for local authorities and partner agencies. Key elements include:

- **Early Help:** Agencies must work together to provide effective early help services, identifying risks before they escalate into more significant concerns. The BFSB supports local early help strategies that bring together social services, education, health, and the voluntary sector to prevent harm before it occurs.
- **Safeguarding Lead:** Each agency must appoint a **Designated Safeguarding Lead (DSL)** who takes responsibility for safeguarding children within their organisation. DSLs must receive training to recognise signs of abuse, manage referrals, and work with multi-agency partners to protect children.
- **Local Child Safeguarding Practice Reviews (LCSPRs):** When a child suffers serious harm or dies as a result of abuse or neglect, local agencies must conduct a review to identify lessons learned. The BFSB has a statutory responsibility to carry out these reviews in a timely and transparent manner, ensuring that learning is used to improve local practices.
- **Information Sharing:** Effective safeguarding relies on timely and secure sharing of information between agencies. *Working Together 2023* stresses the importance of clear protocols for sharing information where it is in the best interests of the child.

- **Designated Health Professionals:** Health agencies must appoint designated professionals for safeguarding, such as **Designated Doctors** and **Designated Nurses** for safeguarding children, to ensure healthcare providers fulfil their statutory safeguarding duties.
- **Education and Training:** All partner agencies are required to ensure their workforce is appropriately trained in safeguarding children. This includes ensuring that professionals across sectors understand their roles, know how to identify signs of abuse, and know how to escalate concerns.

3. Safeguarding Adults under the Care Act 2014

In line with the *Care Act 2014*, BFSB also plays a key role in safeguarding adults at risk. Adults may be vulnerable to abuse and neglect for various reasons, including physical or learning disabilities, mental health conditions, or frailty due to age.

Adult safeguarding is underpinned by six key principles, embedded within the *Care Act*, which are:

- **Empowerment:** people being supported and encouraged to make their own decisions and informed consent.
- **Prevention:** it is better to take action before harm occurs.
- **Proportionality:** the least intrusive response appropriate to the risk presented.
- **Protection:** support and representation for those in greatest need.
- **Partnership:** local solutions through services working with their communities; communities have a part to play in preventing, detecting and reporting neglect and abuse.
- **Accountability:** accountability and transparency in delivering safeguarding.

4. Purpose of Multi-Agency Safeguarding Arrangements

Under *Working Together to Safeguard Children 2023* and the *Care Act 2014*, the Bracknell Forest Safeguarding Board's MASA is designed to:

- **Protect children from harm:** Ensuring children grow up in safe environments and their welfare is promoted.

- **Support adults at risk:** Safeguarding adults who, due to care and support needs, are vulnerable to abuse and neglect.
- **Facilitate collaboration:** Promoting effective multi-agency working across health, social care, education, police, and other sectors to ensure safeguarding arrangements are coordinated, effective, and accountable.

5. Implementation principles

In February 2024, BFSB's statutory partners agreed that Bracknell Forest will retain an all-age Safeguarding Board. When reviewing the multi-agency safeguarding arrangements it was agreed that the following principles would be applied:

- To retain an equal focus on safeguarding arrangements for both children and adults.
- To ensure new roles / responsibilities, as defined within the statutory guidance, are implemented in the most effective way to maintain existing working arrangements.
- To retain a focus on the Bracknell Forest local authority geographic area, whilst recognising that partners operate across wider footprints, including other local authorities.
- To ensure independent scrutiny.
- To continue to work collaboratively with neighbouring safeguarding partnerships where appropriate.

6. Statutory Partners and Responsibilities

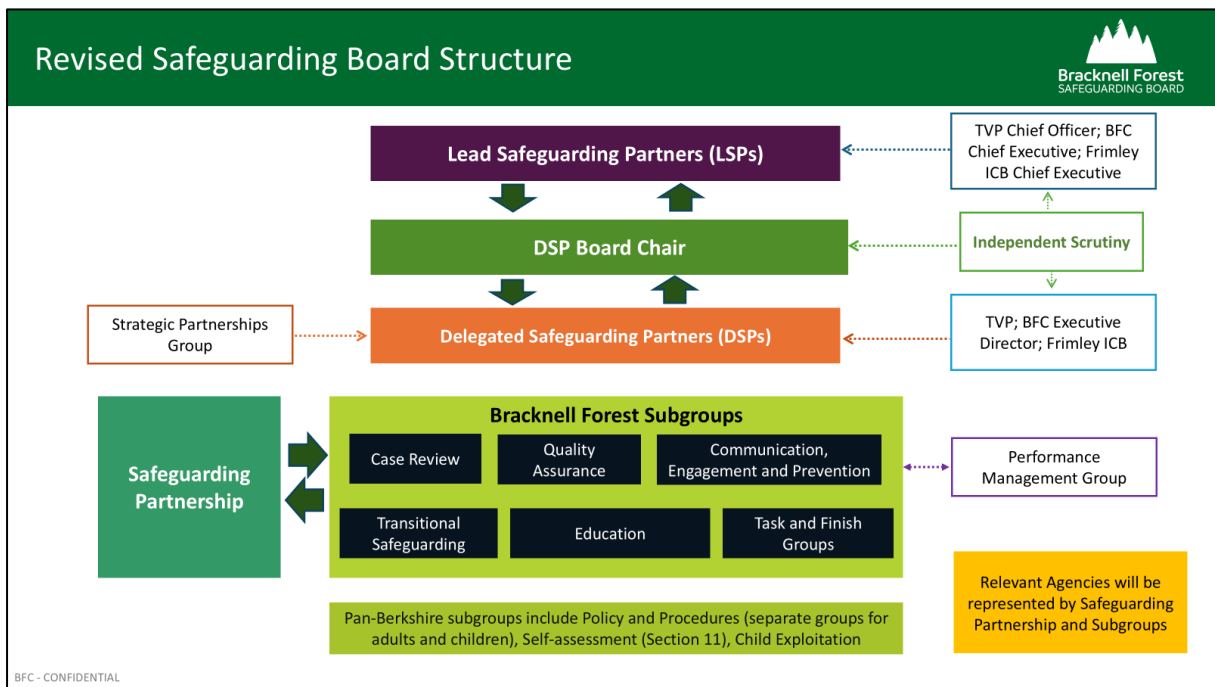

Under *Working Together to Safeguard Children 2023*, the responsibility for local safeguarding arrangements lies with three key statutory partners:

- **Bracknell Forest Borough Council** (Local Authority)
- **Thames Valley Police** (Local Policing Body)
- **Frimley Integrated Care Board (ICB)** (Health Services)

These statutory partners share joint responsibility for safeguarding children and young people. Their collective duty is to ensure that the local multi-agency safeguarding system is effective and delivers positive outcomes for children. Each partner is responsible for:

- **Local Authority:** Leading on children’s social care services and working closely with families and other services to provide early help and safeguarding responses.
- **Health:** Ensuring that health services, including mental health, general practitioners (GPs), and hospital services, contribute to safeguarding by identifying risks, sharing information, and providing medical support.
- **Police:** Investigating safeguarding concerns, protecting children from harm, and collaborating with other agencies to provide a coordinated response to criminal activity, including child exploitation and abuse.

7. Arrangements for Safeguarding Partners to Work Together

The Board is responsible for supporting the co-ordination of multi-agency arrangements to protect and safeguard children and adults in Bracknell Forest and for monitoring their effectiveness at a multi-agency strategic level and to be assured that:

- Local safeguarding arrangements are in place as defined by the Care Act 2014 and the Children Act 2004 and all relevant statutory guidance.
- Safeguarding practice is person-centred and outcome focused.
- Safeguarding practice is continuously improving and enhancing the quality of life of adults and children in its area.

- Work is undertaken collaboratively to prevent abuse and neglect where possible.
- Agencies and individuals give timely and proportionate responses when abuse or neglect have occurred.

The three key agencies, namely health, police and the local authority (the Board) will oversee and coordinate multi-agency arrangements for protecting children and adults, deliver joint strategies and lead the safeguarding system. The Board is also responsible for monitoring and evaluating the effectiveness of what is done by partners individually and collectively to safeguard and promote the welfare of children and adults and advising them on ways to improve. This is primarily achieved through the Performance and Impact Framework.

The Board is supported in its work by the Safeguarding Partnership and a number of subgroups; each operates to its own Terms of Reference (ToR). Short term task and finish groups may also be set up to focus on the implementation of specific objectives or projects.

The Safeguarding Board has the following subgroups:

- Case Review
- Quality Assurance
- Communication, Engagement & Prevention
- Education
- Transitional Safeguarding
- Children's Policy and Procedures (operates on Berkshire footprint)
- Adults Policy and Procedures (operates on Berkshire footprint)
- S11/Self-Assessment (operates on Berkshire footprint)
- Exploitation (operates on Berkshire footprint)

The Safeguarding Board links to the following groups:

- Strategic Partnerships Group
- Child Death Overview Panel
- Serious Violence and Exploitation

8. Confirmation of Safeguarding Partners

As defined within WT23, the head of each statutory safeguarding partner will be referred to as 'Lead Safeguarding Partners' (LSP). They have appointed 'Delegated Safeguarding Partners' (DSP). LSPs are senior representatives from local authorities, integrated care boards, and the police. They hold strategic leadership and accountability for safeguarding arrangements. DSPs

are responsible for the operational delivery of safeguarding duties and have sufficient seniority to make decisions on behalf of the LSP. Further details of the LSP and DSP role can be found here: [Strategic leadership and accountability](#).

The following roles have been confirmed as LSPs and DSPs in Bracknell Forest:

Lead Safeguarding Partners:

- Chief Executive: Bracknell Forest Council
- Chief Constable: Thames Valley Police
- Chief Executive: Frimley Integrated Care Board

WT23 guidance acknowledges that in cases where the boundaries of the police and ICB extend over multiple local authority areas, LSPs may decide to meet at a more regional level so they can discuss all arrangements within their remit and ensure consistency of funding and resources¹. As Thames Valley Police and Frimley ICB each cover multiple local authority areas, it is proposed that the LSP will meet the Board once a year and will have regular meetings with the DSP to keep abreast of local issues.

Delegated Safeguarding Partners:

- Executive Director (People): Bracknell Forest Council
- Head of Local Command Unit (Chief Superintendent): Thames Valley Police
- Executive Chief Nurse: Nursing & Quality/Deputy Chief Nurse: Safeguarding: Frimley Integrated Care Board

Chairing arrangements

The Board will be chaired by one of the Delegated Safeguarding Partners. Initially, this role will be filled by the Executive Director of People from Bracknell Forest Council. They will be supported by the Business Unit and the Independent Scrutineer.

9. Arrangements for Independent Scrutiny

The Bracknell Forest Safeguarding Board will ensure scrutiny arrangements to:

1. provide an objective assessment of the effectiveness of local safeguarding arrangements and help ensure that safeguarding partners are fulfilling their responsibilities.

¹ [Working together to safeguard children 2023: statutory guidance \(publishing.service.gov.uk\)](https://www.publishing.service.gov.uk/government/uploads/system/uploads/attachment_data/file/101421/working-together-to-safeguard-children-2023-statutory-guidance.pdf)

2. offer critical challenge and support to the safeguarding partners, ensuring that the arrangements are robust and effective.
3. contribute to the Board's annual report by assessing the effectiveness of the safeguarding arrangements.
4. engage with a wide range of stakeholders, including children and families, to gather their views and experiences.

These arrangements are designed to foster a culture of continuous improvement and accountability in safeguarding practices. To support this approach, BFSB appointed an independent Scrutineer (IS) and agreed a work plan that reflected its strategic priorities and the emerging themes identified through its performance and improvement activities.

In addition, the IS provides a quarterly report to the Safeguarding Board who in turn monitor the current contract.

10. Relevant Agencies

If the local arrangements are to be successful, the Safeguarding Board will need the support of senior leaders who can provide data and intelligence to support the routine assessment of safeguarding effectiveness.

As part of the implementation of its Multi-agency Safeguarding Arrangements (MASA), BFSB has worked to ensure the identification of Relevant Agencies and that they understand and comply with their statutory safeguarding duties under the Children Act 2004.

As a result, Appendix 1 sets out an updated list of those local organisations currently identified as meeting the criteria, as required Working Together to Safeguard Children (HMGov 2023) and The Child Safeguarding Practice Review and Relevant Agency (England) Regulations 2018).

By engaging with an increased number of Relevant Agencies, BFSB has sought to further promote a child-centred and coordinated approach to safeguarding across all agencies and to strengthen the existing multi-agency working and information sharing that is embed within the Borough. By formally engaging with this expanded cohort of RAs, the Board is able to include them in its monitoring and evaluation activities and seek assurance as to the effectiveness of their safeguarding arrangements.

11. Educational Providers

The Safeguarding Board will continue to work with the DfE representatives to establish the most effective inclusion of educational providers in the multi-agency arrangements at the local level. These will include all schools (including independent schools, academies and free schools), colleges, early years and childcare settings and other educational providers including alternative provision, home educators and adult learning providers. The principles of co-production will underpin work to ensure that all key stakeholders are able to help design a sustainable and effective mechanism to strengthen the contribution of those responsible for safeguarding within this sector. Safeguarding partners will continue to work together to establish educational sector involvement.

12. Youth Custody and Residential Homes

The Bracknell Forest Safeguarding Board is dedicated to ensuring the safety and well-being of all children, young people and vulnerable adults in residential care and youth custody provision, whether within their local authority area or outside it.

A number of measures are in place to ensure the quality and safety of commissioned services (residential provision for both adults and children and a range of other care and support services). These include due diligence, contract monitoring, on site quality assurance visits and the Care Governance Board.

For residential homes within the area, the council commissions a range of services to meet the needs of adults and children. Rigorous oversight is achieved through regular inspections and quality assurance processes. When placing children in homes or youth custody outside the area, they adhere to the 'Working Together to Safeguard Children 2023' guidance. This includes thorough assessments, notifying host authorities, and ongoing monitoring to ensure the suitability and safety of placements. There are currently five residential homes located within the borough providing services for children and 13 for adults.

The Bracknell Forest Care Governance Board (CGB) oversees the quality and safety of services commissioned by the council. If a quality and safety concern is raised about a commissioned service, consideration is given as to whether the concerns are significant enough to embargo further placements with the service, whilst activity is undertaken to investigate the concerns and to safeguard individuals. Care Governance Board meetings are multi-agency and decisions regarding embargos are made collectively between commissioners, operational colleagues

and Health Partners. The Care Governance Board meets monthly to review embargo decisions and agree further interventions as appropriate.

Bracknell Forest's catchment youth offender institution is Feltham Prison and Young Offender Institution (YOI). Children placed there receive support in line with national standards that includes having appropriate safeguarding measures in place. Each child is assigned a caseworker located within the YOI who works collaboratively with health education and local authority staff, and who will raise and where necessary escalate safeguarding concerns. Children on remand automatically become 'Children Looked After' and are allocated a social worker prior to their sentencing, who along with our local Youth Justice Team (YJT) then visit them regularly throughout their sentence. Such support ensures health, welfare and educational needs are reviewed on each occasion. Similarly, where children within the YOI are the subject of Multi Agency Public Protection Arrangements (MAPPA), representatives from the YOI are invited to attend to consider the child's needs, vulnerabilities and their risk to the public.

Multi-agency resettlement planning for children begins as soon as they are placed in custody to ensure their transition into the community is well supported. A specialist member of YJT staff together with their education lead liaise with the YOI to ensure any needs identified (e.g. within EHCP plans) are address and the risk of re-offending is minimised.

The local authority works closely with host authorities to ensure that all children and young people have access to necessary support and services, such as healthcare and education. They are committed to safeguarding, and they strive to provide consistent, high-quality care for all, regardless of their placement location.

13. Local Child Safeguarding Practice Reviews (LCSPRs) and Safeguarding Adults Reviews (SARs)

Working Together 2023 requires that Rapid Reviews (RR) and where necessary Local Child Safeguarding Practice Reviews (LCSPRs) are held if a child suffers significant harm or dies as a result of abuse or neglect, and where there are concerns about how agencies worked together.

Similarly, under the *Care Act 2014*, the BFSB is responsible for conducting Safeguarding Adults Reviews (SARs) when an adult at risk experiences serious harm or death, and there is reason to believe that partner agencies could have worked more effectively to prevent it.

Both reviews aim to improve practice by identifying lessons learned, and their findings are shared across all relevant agencies to improve future safeguarding responses.

Using the RR process: any agency can notify BFSB of a serious incident they think should be considered for a Safeguarding Adult Review (SAR) and/or a Local Child Safeguarding Practice Review (LCSPR). BFSB require that notifications are made promptly and given priority over other learning processes such as the commissioning of a Serious Incident Review or its equivalent.

Notifications involving children will follow the guidance set out in the [pan-Berkshire policies and procedures](#) (in respect of children) and reflect the requirements of 16C(1) of the Children Act 2004.

Notifications involving adults will follow the legislative requirements as set out in the Care Act 2014 and [section 2.9 of the pan Berkshire Safeguarding Adults Policy and Procedures](#).

Commissioning a review: a RR meeting will be convened, at which the delegated representatives of the three statutory partners (along with representatives from other relevant organisations) consider all the information that has been gathered and whether or not the criteria is met to commission a SAR or LCSPR. As part of the meeting, the delegated representatives will:

- Review the facts about the case.
- Discuss whether there is any immediate action needed to ensure the safety of an individual and to share any learning appropriately.
- Consider the potential for identifying improvements to safeguard individuals.
- Consider examples of good practice.
- Where a review does not recommend a SAR and / or LCSPR, it will agree what form of learning review, if any, is appropriate. In some cases, the RR process may identify key local learning that can be quickly acted upon, removing the need for any further review.

Publication and dissemination of learning: BFSB requires that learning identified at any stages of the RR process and during case reviews is shared as soon as is practicable. All reviews are anonymised before publication. LCSPRs are published on the [Board's website](#) (unless agreed with the National Panel that it would not be in the best interests of the child, given the small size of Bracknell Forest local authority), sent to the [National Case Review Collection](#): a repository of published reports (hosted by the NSPCC) and emailed out to all partner

organisations. SARs are published on the [Board's website](#), sent to the national [SAR library](#) and emailed out to all partner organisations.

Learning from case reviews is enhanced by a multi-agency learning brief. These are also sent to the relevant national data base, published on the Board's website and emailed out to all partners. Multi-agency learning events are held for practitioners once a review is complete. These short events highlight any good practice identified and helps practitioners and managers consider how the identified learning can help strengthen practice and improve local systems.

14. Voice of Children, Young People, Families, and Adults

The Communications, Engagement and Prevention subgroup ensures all partners and strategic partnerships are aware of the need to receive feedback from the people to whom they provide services. This will inform learning and drive service improvement. The subgroup also co-ordinates specific projects with vulnerable groups of people to co-produce safeguarding awareness and campaign information.

The Case Review subgroup will seek to ensure that children and adults voices are present in all safeguarding reviews, to improve the understanding of their experience. Family members may also represent the views and wishes. Where there is no known family representative a decision to engage advocacy may be taken.

The Quality Assurance subgroup carries out multi agency audits that includes reviews into how the voice of the person feature within cases, and how person-centred practice feature. The subgroup also reviews outcome data and consultations regarding people's experiences of safeguarding.

The voice of vulnerable people will also be central to the work of the Independent Scrutineer and will strengthen the assurance required by Safeguarding Partners.

15. Escalation of Concerns and Whistleblowing

BFSB recognises the importance of partner organisations working collaboratively and to explore a range of perspectives and professional opinions. Where differences of opinion between staff remain unresolved it is imperative that professionals work to resolve this as a matter of urgency.

Established local multi-agency arrangements are designed to further support single-agency procedures and benefit from the endorsement of key partner organisations.

These include:

- arrangements for [Resolving Professional Difference of Opinion and Escalation](#)
- arrangements for [Resolving Professional Disagreements about Safeguarding Adults](#) (Escalation Policy)

While BFSB recognises that whistleblowing can be seen to be independent of the above procedures, it too requires organisations maintain cultures that encourage of transparency and supporting their staff in being able to access and use whistle blowing procedures. The BFSB multi-agency [whistleblowing procedures](#) are designed to complement those available within partner organisations and provides guidance as to how concerns should be raised within the workplace.

16. Safeguarding Training and Development

Training plays a critical role in ensuring that all staff and volunteers across agencies are equipped to carry out their safeguarding responsibilities. The Bracknell Forest Safeguarding Board is committed to ensuring that all partner agencies provide high-quality safeguarding training.

BFSB has established agreed standards to help support partners training activities. In addition, the Board offers on a model competency framework to enable partners to implement and evaluate the effectiveness of their training.

The Training and Professional Development Framework emphasises accountability, continuous improvement, and collaboration. This framework is overseen by the Training and Professional Development Subgroup which gathers information on training activities and ensures that these activities enable the workforce to develop the necessary skills and confidence to protect vulnerable people effectively. The subgroup also has the following roles:

- Promote Key Themes: Highlight specific themes for inclusion in training based on learning from case reviews, audits, policy changes, and other matters identified by the Safeguarding Board and its sub-groups.
- Feedback and Dissemination: Receive feedback on individual partners' safeguarding training and disseminate learning from case reviews, including evaluating the impact.

- Identify Training Needs: Identify training needs that the Safeguarding Board can consider addressing by organising multi-agency training sessions.
- Promote Multi-Agency Training: Promote multi-agency training sessions conducted by partner organisations and the Board's subgroups, including case review learning events and the bi-annual safeguarding forum.
- Data Collection and Reporting: Collate data on partners' safeguarding training and its impact for inclusion in the Safeguarding Board's Annual Report.

By integrating safeguarding principles for both adults and children, the Board ensures that the workforce is equipped with the necessary skills and knowledge to protect vulnerable individuals effectively.

17. Information Sharing

Effective safeguarding is fundamentally dependent on the timely and secure exchange of information between agencies. The Care Act 2014 and 'Working Together to Safeguard Children 2023' guidelines emphasise the necessity of clear and robust protocols for sharing information, especially when it serves the best interests of the [child](#) and [adults](#) at risk.

In line with the requirements of Working Together 2023, BFSB has worked with neighbouring safeguarding partnerships to review and revise its guidance on Information Sharing. As a result, the Information Sharing Protocol set out in Appendix 1 represents a concise guide designed to help organisations and their staff navigate this important aspect of their safeguarding responsibilities.

18. Alignment with Local Threshold Document

The Bracknell Forest Safeguarding Board is committed to ensuring a consistent and effective response to safeguarding concerns through their multi-agency safeguarding arrangements. By aligning with the [Bracknell Forest Children's Thresholds Guidance 2025](#), the Safeguarding Board will ensure that all partner agencies have a shared understanding of the levels of need and intervention required. This alignment facilitates effective collaboration, clear pathways for support, and ensures that all professionals are trained and aware of how to apply the thresholds in their practice. Quality assurance processes further ensure that the guidance is followed correctly, providing the best possible outcomes for children and families.

19. Use of Data and Intelligence

The effective use of data and intelligence is crucial for safeguarding both children and adults. Personal data is essential for conducting safeguarding adult reviews and local safeguarding children practice reviews. Additionally, general data helps identify trends and patterns in safeguarding activities, abuse, and neglect.

Data Collection and Intelligence Gathering:

- **Bi-Monthly Meetings:** Intelligence will be gathered at Safeguarding Partnership meetings with relevant agency representatives.
- **Operational Partnership Groups:** Links with operational partnership groups, such as Community Safety Partnership subgroups, will facilitate the sharing of intelligence. The Serious Violence and Exploitation subgroup will use data and intelligence to support the implementation of a joint Safeguarding Board / Community Safety Partnership all age exploitation strategy. This will include contextual safeguarding.
- **Strategic Partnerships:** Meetings organised under a memorandum of understanding between the Safeguarding Board and other strategic partnerships within Bracknell Forest will further support intelligence gathering. These strategic partnerships include the Community Safety Partnership, the Health and Wellbeing Board, Children and Young Peoples Partnership and the Corporate Parenting Board.

Performance and Impact Management Framework (PIF):

- **Framework Overview:** The PIF, introduced following recommendations from a peer review of local multi-agency safeguarding arrangements, consolidates data, information, and intelligence gathered within the multi-agency safeguarding structure of subgroups and through links to other groups and partnerships.
- **Content of PIF:** The PIF contains comprehensive data on safeguarding activities, including incident reports, case reviews, and trend analyses.
- **Performance Management Group:** This group, consisting of the chairs of subgroups, analyses the PIF quarterly. They produce a summary report for the DSPs to discuss at their meetings, evaluating the impact of the work.
- **Quality Assurance Subgroup:** This subgroup provides detailed analysis of the data and information before the Performance Management Group meeting.
- **Independent Scrutineer:** An Independent Scrutineer will add an additional layer of assurance, ensuring the integrity and effectiveness of the safeguarding processes.

By examining the data and intelligence in this way the Board can make informed decisions, identify areas for improvement and ensure that safeguarding practices are effective and responsive to the needs of both children and adults.

20. Funding Arrangements

As there is no national formula for funding, levels of contribution are agreed locally. Bracknell Forest Council currently contribute most of the Board's direct funding. Bracknell Forest Council also hosts the Safeguarding Board's Business Unit. The ICB and Thames Valley Police are the other statutory partners who contribute to the Board. Broadmoor Secure Hospital also give £550 annually.

Bracknell Forest Council will continue to provide the funding at a local level. Thames Valley Police and Frimley Health Integrated Care Board will agree funding levels at a Berkshire level through discussions of LSPs.

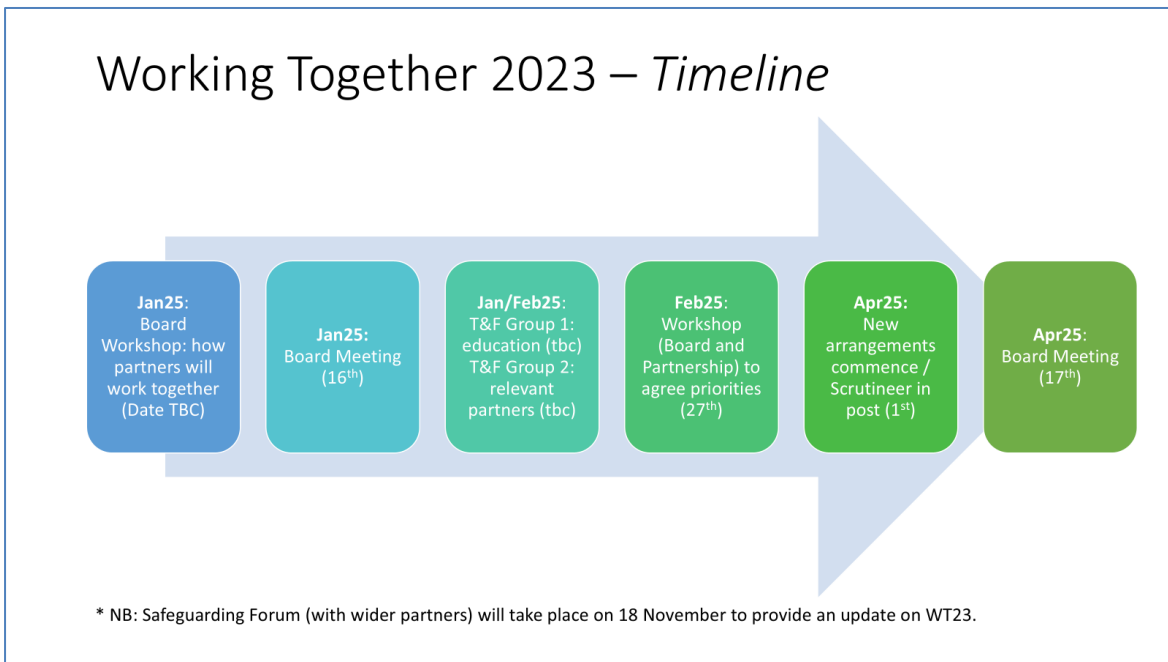

21. Priorities for 2025 and beyond

BFSB intends to commence the implementation of the revised MASAs from the 1st April 2025. During the transition period to 1st April 2025 the current Independent Chair and Scrutineer will remain in post.

To ensure the ongoing effectiveness of our multi-agency safeguarding arrangements, BFSB will undertake the following activities:

- **Host a workshop** to agree how partners will strengthen the way they work together in practice.
- **Facilitate work to** strengthen partnerships with schools and educational institutions to ensure robust safeguarding measures are in place, particularly around online safety, bullying, and mental health support.
- **Facilitate** work with representatives of local organisations to ensure that they are aware of their responsibilities as relevant partners and to formalise arrangements.
- **Appoint an Independent Scrutineer.**
- **Facilitate a workshop to agree priorities** for 2024 - 26 and beyond.

Working Together 2023 Timeline

22. Conclusion

The Bracknell Forest Safeguarding Board is dedicated to safeguarding all individuals, from children and young people to vulnerable adults, by working together effectively with statutory and voluntary partners. Our multi-agency safeguarding arrangements, guided by the *Working Together to Safeguard Children 2023* and the *Care Act 2014*, provide the framework to ensure that every child and adult at risk in Bracknell Forest is protected and supported.

For more information, or to report a safeguarding concern, please visit our website <http://bracknellforestsafeguarding.gov.uk> or contact us at bfsb@bracknell-forest.com

Information Sharing Protocol

All children have a right to be protected from abuse and neglect. Protecting a child from such harm takes priority over protecting their privacy, or the privacy rights of the person(s) failing to protect them.

You do not need consent to share personal information about a child and/or members of their family if a child is at risk or there is a perceived risk of harm.

Only share relevant and accurate information with individuals or agencies/organisations that have a role in safeguarding the child and/or providing their family with support and only share the information they need to support the provision of their services.

From pages 4 and 5 of 'Information Sharing – Advice for practitioners providing safeguarding services for children, young people, parents and carers' (Department for Education, April 2024)

APPENDIX A: Flowchart for when and how to share information	6
APPENDIX B: Data Protection	7

Information Sharing Protocol

1. What do we mean by information sharing?

- 1.1 Information sharing in a safeguarding context means the appropriate and secure exchange of personal information, between practitioners and other individuals with a responsibility for children, in order to keep them safe from harm.
- 1.2 This advice relates to sharing case-level information about individual children and, where necessary, information about family members and other people who might – through their actions – put a child at risk of harm.
- 1.3 This includes informal sharing of information between practitioners to develop an accurate understanding of a child or family, and more formal processes of sharing information such as referrals into local authority children's services.

2. Purposes

- 2.1 The purpose of this Information Sharing Protocol is to provide a framework to facilitate the appropriate sharing of information between all the Partner Agencies in order to safeguard and promote the welfare of children across Berkshire and to protect them from harm. This Protocol complements existing Information Sharing Agreements held by each of the statutory partners, an example of which can be found at: [Regional Health and Social Care Information Sharing Agreement](#). Please see Appendix A for guidance when considering data protection issues in practice.
- 2.2 This Information Sharing Protocol recognises that the [UK General Data Protection Regulations](#) ("GDPR") and the [Data Protection Act 2018](#) (together, the "Data Protection Legislation") are not barriers to justified information sharing but rather ensure that information sharing is necessary, proportionate, relevant, adequate, accurate, timely and secure. Please see Appendix B for specific data protection guidance.
- 2.3 The Purposes of this Information Sharing Protocol are also:
 - To facilitate the collaboration between Partner Agencies to achieve improved outcomes for vulnerable children. To facilitate the identification and analysis of new safeguarding issues and emerging threats;
 - To facilitate the promotion and embedding of learning;
 - To facilitate the commissioning and publication of Child Safeguarding Practice Reviews;
 - To facilitate Rapid Reviews of cases, local and national Child Safeguarding Practice Reviews, and any other reviews to aid local learning and improvement in safeguarding services; and
 - To enable Multi-Agency Audits to be conducted

3. Who are the 'partner agencies' required to abide by this protocol?

- 3.1 The Lead Safeguarding Partners within each of the Safeguarding Children Partnerships identified above have a shared and equal duty to make arrangements to work together to safeguard and promote the welfare of all children their respective areas.

Information Sharing Protocol

- 3.2 The named Statutory Safeguarding Partners for Safeguarding Children Partnerships are specified in each Partnership's Multi-agency Safeguarding Arrangements document:
- Bracknell Forest Safeguarding Board
 - Berkshire West Safeguarding Children Partnership
 - The Royal Borough of Windsor & Maidenhead
 - Slough Safeguarding Partnership
- 3.3 A wider group of delegated safeguarding partners and relevant agencies across Berkshire are directly engaged with the work of the Safeguarding Children Partnerships through membership of their respective subgroups. These delegated partners and relevant agencies are also specified in the above MASA documents.
- 3.4 This Information Sharing Protocol sets out the principles for using and sharing personal information amongst the all the member organisations of Berkshire's four Safeguarding Children Partnerships.)
- 3.5 To support earlier identification, prevention, and intervention with children in need of support or at risk of harm, Safeguarding Children Partnerships are heavily reliant on all partner agencies sharing a variety of relevant information. Effective and structured sharing of information between partners:
- informs planning,
 - enables trends and patterns of activity to be identified and understood
 - improves the quality of responses to emergencies, and
 - supports effective intervention to support the wellbeing and safety of children, young people, families, and communities.
- 4. Information sharing principles of this protocol**
- Nothing is more important than children's welfare;
 - Information sharing is essential for effective safeguarding and promoting the welfare of children and young people.
 - Local Child Safeguarding Practice Reviews (LCSPR's) carried out following the death or serious injury of a child have repeatedly highlighted that missed opportunities to record, understand the significance of and share information in a timely manner can have severe consequences for the safety and welfare of children
 - The timely and effective sharing of information can improve decision-making and protect the best interests of a child;
 - This Protocol is in harmony with the seven golden rules to sharing information set out in HM Government's Information Sharing Advice to practitioners providing safeguarding services to children, young people, parents and carers April 2024 which are:
 - The Data Protection Legislation and human rights laws are not barriers to justified information sharing but a framework to ensure it is shared appropriately.

Information Sharing Protocol

- Be open and honest with the individual (and/or their family where appropriate) from the outset about why, what, how and with whom information will, or could be, shared, and seek their agreement, unless it is unsafe or inappropriate to do so;
- Seek advice where in any doubt about sharing the information concerned.
- Most information sharing will be underpinned by legislation and a legal requirement that either requires or permits the sharing. If possible and providing it does not prejudice safeguarding matters families will be kept informed of any information sharing. In the event that consent to share information is sought it should only be asked for if the person has a choice to say yes or no.
- Consider safety and wellbeing: base information-sharing decisions on considerations of the safety and wellbeing of the person and others who may be affected by their actions.
- Necessary, proportionate, relevant, accurate, timely and secure: ensure that the information shared is necessary for the purpose for which it is shared, is shared only with those people who need to have it, is accurate and up to date, is shared in a timely fashion, and is shared securely and
- Keep a record of the decision and the reasons for it – whether it is to share information or not. If information is shared, then record what was shared, with whom and for what purpose.

5. Legislative Framework for Sharing Information

5.1 This Information Sharing Protocol is underpinned by the following legislation, statutory and policy guidance:

- The Children and Social Work Act 2017, under which the local authority, the Chief Officer of Police for an area, any part of which falls within the local authority area and a clinical commissioning group for an area, any part of which falls within the local authority area health have an equal and shared duty to work together (in partnership with other relevant agencies) to make arrangements to safeguard and promote the welfare of all children in a local area
- The Children Act 2004, sections 11, 16E and 20 (Joint Targeted Area Inspections)
- The Care Act 2014 (including statutory guidance to the Care Act 2014) which requires the establishment of a Safeguarding Adults Board (SAB) comprising the local authority, the Integrated Care Boards in the local authority's area and the Chief Officer of Police in the local authority's area, to assure itself that local safeguarding arrangements and partners act to help and protect adults in the locality
- The Data Protection Act 2018
- The UK General Data Protection Regulations
- Crime and Disorder Act 1998, section 115
- The Human Rights Act 1998

Information Sharing Protocol

- The Criminal Justice Act 2003, section 325
- Domestic Violence, Crime and Victims Act 2004
- Working Together to Safeguard Children statutory guidance 2023
- Information Sharing Advice to practitioners providing safeguarding services to children, young people, parents and carers (April 2024)

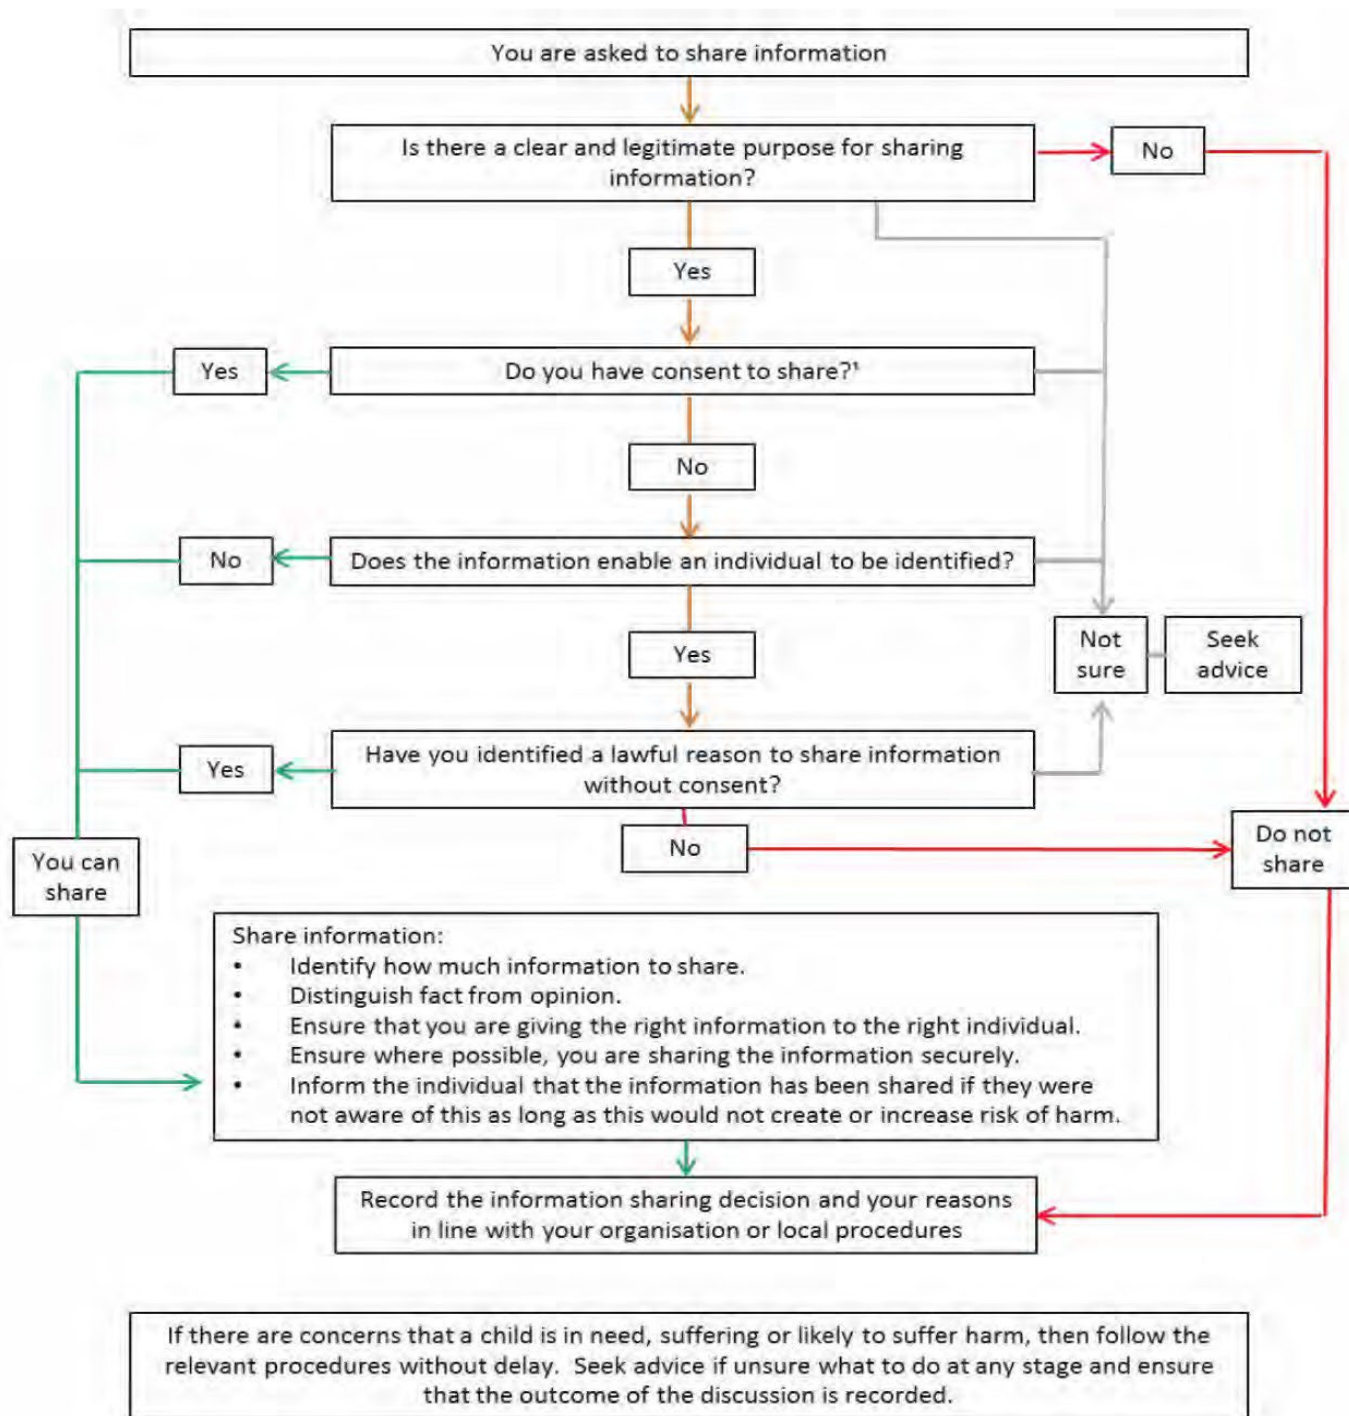

5.2 The Partner Agencies have a range of statutory duties between them and typically, will be able to lawfully share personal data based on (but not limited to) the legal gateways set out above.

6. Monitoring and reviewing

- 6.1 Each Partner Agency shall ensure that its lead officer or Single Point of Contact maintains oversight of this Information Sharing Protocol
- 6.2 The content of this Information Sharing Protocol will be reviewed initially after six months and thereafter annually by the Partner Agencies to ensure compliance with legislation and to review its' effectiveness.
- 6.3 Any changes to this Information Sharing Protocol must be agreed in writing by all the Partner Agencies.
- 6.4 If one partner agency has declined to share information that another partner agency feels is necessary for the safety of a child, the matter should be escalated, at pace, to the Lead Safeguarding Partners for a decision.
- 6.5 Each Partner Agency undertakes and agrees to pursue a positive approach towards resolving any dispute which maintains a strong working relationship between the Partner Agencies. Each Partner Agency's Single Point of Contact or lead officer will use all reasonable endeavours to identify a mutually acceptable solution.
- 6.6 Each Partner Agency will keep each of the other Partner Agencies fully indemnified against any and all costs, expenses and claims arising out of any breach of this agreement.

Information Sharing Protocol

APPENDIX A: Flowchart for when and how to share information

1. Consent must be unambiguous, freely given and may be withdrawn at any time

This flowchart is taken from HM Government Information Sharing - Advice for practitioners providing safeguarding services to children, young people, parents and carers - July 2018.

Information Sharing Protocol

APPENDIX B – DATA PROTECTION

- 1.1 This Information Sharing Protocol sets out the framework for the sharing of personal data between the Partner Agencies as controllers (within the meaning of the Data Protection Legislation). The Partner Agencies acknowledge that each Partner Agency will regularly disclose to another Partner Agency or the other Partner Agencies personal data for the Purpose of this Information Sharing Agreement (“Shared Personal Data”).
- 1.2 Each Partner Agency shall comply with all the obligations imposed on a controller under the Data Protection Legislation.
- 1.3 Each Partner Agency shall:
 - process Shared Personal Data fairly, lawfully and transparently
 - process the Shared Personal Data only for the Purpose of this Information Sharing Agreement
 - ensure that personal data to be shared is accurate and up to date.
 - ensure that it has in place appropriate technical and organisational measures to protect against unauthorised or unlawful processing of Shared Personal Data and against accidental loss or destruction of, or damage to, Shared Personal Data. Without limitation to this clause, this shall include ensuring that any information shared via email is shared in an encrypted attachment, shared between secure email domains or shared using an encrypted email service.
 - ensure that individuals are informed about the collection and use of their personal data and are provided with the privacy information required by the Data Protection Legislation.
 - respect its obligations to comply with data subject access requests under the Data Protection Legislation and information requests under the Freedom of Information Act 2000 (or Environmental Information Regulations 2004 as applicable) and provide reasonable assistance to each other Partner Agency to comply with their obligations.
 - will not share information with any country outside of the EEA without ensuring the rules on international transfers or personal data contained in Data Protection legislation are adhered to.
 - notify the other Partner Agencies without undue delay on becoming aware of any breach of the Data Protection Legislation and provide reasonable assistance to each other Partner Agency as is necessary to facilitate the handling of any personal data breach in an expeditious and compliant manner;
 - provide the other Partner Agencies with contact details of at least one employee as a single point of contact (“SPoC”) and responsible manager for all issues arising out of the Data Protection Legislation.
 - keep a record of what Shared Personal Data has been shared, with which Partner Agency (Agencies) and the reasons or Purpose why it was shared and keep a record of decisions not to share information and the reasons why it was not shared; and

Information Sharing Protocol

- keep the Shared Personal Data for no longer than is necessary for the Purpose or that Partner Agency's statutory functions.

- 1.4 The Partner Agencies acknowledge that the Shared Personal Data will regularly be special category data within the meaning of the Data Protection Legislation. Special category data will be shared only where there is an additional special category condition within the meaning of the Data Protection Legislation. That special category condition is likely to be:
- 1.4.1 the explicit consent of the data subject has been obtained where possible and appropriate. It may not be appropriate to seek consent where the information needs to be shared to prevent harm.
 - 1.4.2 the sharing is necessary to protect the vital interests of the data subject or of another natural person where the data subject is physically or legally incapable of giving consent.
 - (a) Explicit consent
 - (b) Employment, social security and social protection (if authorised by law) (c) Vital interests
 - (d) Not-for-profit bodies
 - (e) Made public by the data subject
 - (f) Legal claims or judicial acts
 - (g) Reasons of substantial public interest (with a basis in law)
 - (h) Health or social care (with a basis in law)
 - (i) Public health (with a basis in law)
 - (j) Archiving, research and statistics (with a basis in law)
 - 1.4.3 the processing is necessary for the establishment, exercise or defence of legal claims; or
 - 1.4.4 the processing is necessary for reasons of substantial public interest.

BFSB Implementation Plan: Supporting Relevant Agencies under Working Together to Safeguard Children (2023)

1. Strategic Objectives

2. As part of the implementation of its existing [Multi-agency Safeguarding Arrangements](#) BFSB has worked to ensure all Relevant Agencies (RAs) understand and comply with their statutory safeguarding duties.
3. The list below sets out those organisations the BFSB working group identified as meeting the criteria set out in Working Together to Safeguard Children 2023 and the Child Safeguarding Practice Review and Relevant Agency (England) Regulations 2018 (see section 2).
4. By expanding the number of organisations within its local partnership, BFSB has sought to promote a child-centred and coordinated approach to safeguarding across all agencies and to further strengthen the existing multi-agency working and information sharing that is embed within the Borough.
5. By formally engaging with this expanded cohort of partner organisations, BFSB can apply its monitoring and evaluation activities to this wider group and also seek assurance as to the effectiveness of their safeguarding arrangements.

2. Background and Legislation Requirements

[Working Together to Safeguard Children \(HMGov 2023\)](#) and [The Child Safeguarding Practice Review and Relevant Agency \(England\) Regulations 2018](#) provide detailed guidance in regard to the role of RAs.

Summary of WT23 requirements

WT23, states that RAs are “those organisations and agencies whose involvement the safeguarding partners consider are required to safeguard and promote the welfare of local children”.

This guidance goes on to state that “when identified as a relevant agency, an organisation must act in accordance with local safeguarding arrangements.”.

As part of this requirement, the organisation should:

- have a clear understanding of its responsibilities in relation to safeguarding children locally, and how it will discharge them
- co-operate with safeguarding partners to improve, implement, and monitor effectiveness of the local safeguarding arrangements
- share information and data about safeguarding issues and concerns affecting the children involved in their organisation to contribute to local priorities
- ensure local multi-agency safeguarding arrangements are fully understood, and rigorously applied within their organisation

3. Monitoring and Evaluation

While maintaining its robust approach to securing data, information and analysis BFSB will operate a proportionate approach to securing oversight of RAs work to support local safeguarding arrangements that include:

- Self-Assessment
- Contribution to Annual Report
- Independent Scrutineer Activity
- Potential Annual Forum

4. Key Actions and Milestones

Final analysis of the information set out below gathered will be used by the Safeguarding Board to confirm which organisations should be formally classified as a ‘Relevant Agencies’ and that will be published within an updated version of the local Multi-agency Safeguarding Arrangements.

The table below sets out the required actions that will support the implementation plan and sets out the associated timescales.

Action	Timescales	Risk / Contingency	Update
Identify whether each organisation is a relevant agency or part of an umbrella body; compile final list for notification and engagement following approval by the Board	Letters sent by 29 Sep - return by 10 Oct. Board agreement 6 November	Unclear organisational structure → Contact organisations directly.	In progress. Letter sent to schools to ask if PTAs are part of their safeguarding processes.
Notify identified relevant agencies and invite them to the engagement events; request safeguarding compliance assurance.	After 6 November Board Meeting	Meeting with advisor to discuss cross border issues.	In progress.
Develop ongoing engagement approach with relevant agencies; forums/lunch and learn sessions and social media	From Nov onwards	Speaker availability issues → Ask multiple speakers to allow flexibility. Low response rate → Send out in advance and include reminders	In progress. First safeguarding forum taking place on 20 th November
Share self-assessment tool with relevant agencies/ ask to complete and provide assurance to the Board regarding safeguarding arrangements as part of the annual reporting process	By 30 May 2026	Low response rate → Send reminders and offer support for clarification. Some partners take part in the section 11 process → avoid duplication. Organisations not named as RA's need to have safeguarding arrangements in place – provide guidance on website along with self-assessment proforma.	Self-assessment proforma is already available on the website along with a document explaining all organisations safeguarding responsibilities
QA sub-group to monitor compliance and advise Independent Scrutineer	By 17 Jul 2026	Non-compliance identified by QASG → IS → Safeguarding Partners engage with organisation leadership	
Complete annual review/ update of relevant agencies and update BFSB Annual Report	By 30 Aug 2026	Low response rate → Send reminders and offer support / challenge.	
Update MASA and publish BFSB AR	By Sep 2026	Failure to meet deadline → forward plan.
