

2026 Polling District and Polling Place Review

This document sets out the council's proposed polling district and polling place arrangements, informed by the representations of the relevant (Acting) Returning Officer. This follows a consultation from Bracknell Forest Council to electors and stakeholders in the Bracknell Forest area.

The codes for each polling district have been selected to aid the administration of elections and electoral events.

- The first letter corresponds to the parliamentary constituency.
- The second letter the parish/town council area.
- The third and fourth is a unique combination based on the district's long-form name.

This is the same coding as was used following the 2023 Polling District and Polling Place Review in place for the 2024 UK Parliamentary election.

Every primary and alternative polling place has been assessed for:

- Accessibility for electors
- Location and ease of access for electors
- Capacity inside the polling station
- Availability
- Parking and public transport links
- The logistics for delivering polling station equipment

Figures taken are from the electoral register as of Wednesday, 1 April 2026.

St Martin's Church, Chavey Down remains the primary venue. Though this venue is outside of the polling district it remains the best option for electors in the area.

A lack of suitable alternatives in the polling district and comparatively small number of electors in the area means that the best alternative option would be to consolidate all Swinley Forest voters at Martin's Heron and The Warren Community Centre.

As a result, no changes have been proposed following this review.

Polling District: MIWI - Winkfield

Electorate	1,849
Parliamentary Constituency	Maidenhead
Borough Ward	Winkfield and Warfield East
Parish Ward	Winkfield and Cranbourne
Polling Place	The Carnation Hall
Alternative Polling Place	Warfield Church, Church Lane

Summary

The scheme outlined above is unchanged from the polling arrangements currently in place in the area.

The Carnation Hall remains the primary venue as voters have a longstanding familiarity with this location and it is located within the polling district.

The alternative venue, while outside of the polling district, has been previously used as a polling place for electors in the neighbouring Warfield East area. It has good facilities for both staff and voters and would provide limited travel disruption for electors in this polling district should it need to be activated.

As a result, no changes have been proposed following this review.
