

Dear Mr Baker,

Bracknell TC (BTC) has resolved to produce a Bracknell wide Neighbourhood Plan (NP). The formal resolution as minute 2292 for the 8th October Council meeting is attached.

You will already be aware that BTC is a relevant body within the meaning of section 61 G of the 1990 Act which states that such bodies include the town or parish council for an area for purposes of producing such a plan.

BTC requests that Bracknell Forest Council designate the area to be included in our NP as that covered by the BTC council wards. This is because the plan will logically focus on matters which impact on a town wide basis, but with sections giving further consideration of particular characteristics of the various communities/ neighbourhoods served within this overall integrated town area. The BTC wish is that Bracknell Forest Council (BFC) therefore support this and designate the area shown on the attached plan, which is all within the overall BFC boundary, as a neighbourhood area. BTC consider that matters such as provision of housing in line with the Local Plan and related roads, parking and use of amenity land issues are best considered on this basis, combined with giving due consideration to the particular characteristics of the communities/ neighbourhoods served within our town.

BTC will work with neighbouring Parish Councils, particularly where communities such as that in Jennetts Park and others straddle this boundary. This Council has a good track record of working with its local community across the town, with BFC and also with neighbouring parish council to address matters relevant to production of a NP for this integrated area.

We look forward to progressing this NP designation process with you.

Regards
Russell
