**Circular walks**

Each of the circular walks listed in this leaflet make great places to visit; whether you’re looking to walk your dog, enjoy the natural surroundings or spot wildlife.

To enhance your visitor experience many of the sites listed in this leaflet have been improved, with new on-site information, access paths, seating areas and wildlife features.

We hope that providing a pleasant semi-natural environment for recreation will provide Suitable Alternative Natural Greenspaces (SANGs) to places like Wildmoor Heath and Swinley Forest, which are part of the internationally important Thames Basin Heaths Special Protection Area (SPA).

By visiting SANGs you will be helping to protect rare and beautiful birds that can be found in the SPA, such as the Dartford warbler, woodlark and nightjar, which are highly sensitive to disturbance from visitors and dogs.

We hope that you enjoy your visit.

**The following symbols are used to describe the facilities available at each site.**
