5.0- SA/SEA APPRAISAL CONCLUSION..... 150

1.0 INTRODUCTION AND BACKGROUND

- 1.1 During its preparation the Site Allocations Development Plan Document has been subject to a process of Sustainability Appraisal (SA) incorporating Strategic Environmental Assessment (SEA).
- 1.2 An essential consideration when drawing up planning documents is their effect on the environment and the people's quality of life, both now and in the future. To help address this, Sustainability Appraisals and Strategic Environmental Assessments are carried out alongside the preparation of these plans to make sure social, environmental and economic issues are taken into account at every stage so that sustainable development is delivered on the ground.
- 1.3 Strategic Environmental Assessment (SEA) is required by European Union Directive (2001/42/EC) on the assessment of the effects of certain plans and programmes on the environment. This Directive is often referred to as the "SEA Directive". SEA is required for DPDs.
- 1.4 Sustainability Appraisal (SA) is required in the UK by the Planning and Compulsory Purchase Act 2004.
- 1.5 The SADPD Proposed Modifications have been reviewed to ascertain if they result in any significant effects on the SADPD Draft Submission SA (incorporating SEA) (SAL50) that should be the subject of further appraisal. This statement has therefore been prepared to supplement the main SA document which accompanies the DPD and provides a record of the consideration given to the SA in respect of the proposed main modifications and where necessary details additional appraisal work.
- 1.6 Having considered the proposed modifications three changes were considered to require either revised appraisals or new appraisal work:
- The expansion of the Land North of Eastern Road Site (Policy SA1);
 - Expansion of Land North of Peacock Lane (Policy SA2); and
 - The introduction of policy CP1 (Presumption in Favour of Sustainable Development).
- 1.7 Any new appraisal work has been presented in Tables 2, 3 and 4.
- 1.8 The remaining proposed modifications, as listed in the schedule of modifications (Table 1), were not considered to result in any significant effects as to warrant any further appraisal work.

2.0 SADPD- PROPOSED MODIFICATIONS TO DRAFT SUBMISSION DOCUMENT (BFBF14)

- 2.1 The following table (Table 1) is a single consolidated list of Proposed Modifications that the Council wishes to make to the Draft Submission version of the SADPD. The list currently includes Proposed Modifications that:
- i) impact on the soundness of the Plan (including those suggested by the Inspector during the Hearing Sessions that took place in November and December 2012)
 - ii) provide clarification or update the position since the Draft Submission Document was prepared in November 2011 (for example, they reflect changes in national policy and guidance and progress made on developments since that date, and changes in terminology).
- 2.2 The Proposed Modifications are presented in plan order. The revised text and reason for the Proposed Modification is also given.
- 2.3 **Bold underlined text** denotes an addition
~~Strikethrough text~~ denotes a deletion
Proposed Modifications are prefixed with 'CM'
- 2.4 The Council is submitting the schedule to the Inspector for consideration. He will then identify the Modifications that he considers affect the soundness of the document. These will be called Main Modifications. He may amend or add further Main Modifications. All Main Modifications will be subject to a further period of consultation (dates to be confirmed).

Table 1- Table of Proposed Modifications and SA/SEA Implications

Proposed Modification/Change Reference Number	Section/page number/para/Policy	Proposed Modification	Reason for modification and SA/SEA Implications
SECTION 1 – INTRODUCTION			
CM1	How to get involved section	Delete section.	Reason for Change: This omission represents a necessary update to the Submission document. SA/SEA Implications: There are no SA/SEA implications as a result of this deletion.
CM2	Section 1.1 – Purpose and structure of document Para. 1.1.1 Page i	1.1.1 Bracknell Forest Council is preparing new planning documents which will guide the scale, type and location of new development in the Borough. The first of these, the Core Strategy, was adopted in 2008. This document is the Site Allocations Development Plan Document (SADPD) and is an essential part of implementing the adopted Core Strategy and the South East Plan . In particular, the SADPD: <ul style="list-style-type: none"> • Identifies sites for future housing development in the Borough; • Ensures that appropriate infrastructure is identified and delivered alongside new development; and, • Revises the boundaries of certain designations shown on the Policies Proposals Map e.g. defined employment areas. 	Reason for Change: To reflect the current development plan For consistency with the Town and Country Planning (Local Plan) (England) Regulations 2012. SA/SEA Implications: There are no SA/SEA implications.
CM3	Section 1.1 – Purpose and structure of	1.1.2 Once adopted, the planning policies in this document will be used to determine planning applications along with policies in the Core Strategy, saved policies in the Bracknell Forest Borough Local Plan 2002 and policies in the South East Plan 2009 (until such time	Reason for Change: To clarify the Councils' position with regard to the

Proposed Modification/Change Reference Number	Section/page number/para/Policy	Proposed Modification	Reason for modification and SA/SEA Implications
	document Para 1.1.2 , Page 1	<u>as it is revoked).</u>	impending revocation of the South East Plan. SA/SEA Implications: There are no SA/SEA implications.
CM4	Section 1.1 – Purpose and structure of document Para1.1.3 Page 1	This Site Allocations Development Plan Document identifies the locations allocates sites for different forms of development required to help achieve the vision and spatial objectives in the Council's adopted Core Strategy and the South East Plan . One of its main functions is to allocate sites to meet most of the Borough's housing needs to 2026 . In view of this, Section 2 'Housing' of this document allocates specific sites in the Borough to deliver future housing. The search for housing sites has included a review of the Borough's employment needs for the plan period. As a result, this document proposes the removal of the employment designation from certain areas where this will not prejudice the future health of the Borough's economy. Section 3 of this document therefore deals with employment (3 'Employment')	Reason for Change: To better reflect the role of the SADPD as a first step in delivery of the South East Plan housing requirement. SA/SEA Implications: There are no SA/SEA implications.
CM5	Section 1.1 – Purpose and structure of document Para 1.1.5, Page 1	1.1.5 Section 5 of this document identifies policy area boundary changes that will be made as a result of this document and sets out a specific policy for the proposed changes to the Policies Proposals Policies Map. The final section of the document (6 'Delivery, phasing and implementation') sets out how the policies in this document will be delivered and monitored.	Reason for Change: For consistency with the Town and Country Planning (Local Plan) (England) Regulations 2012. SA/SEA Implications: There are no SA/SEA implications.
CM6	Section 1.1 – Purpose and structure of document	1.1. 6 The appendices to the document include background information to the housing allocations, including a Housing Trajectory. Maps showing the boundaries of a number of housing sites referred to in the policies are included together with extracts from the Bracknell Forest Borough Proposals Policies Map showing changes relating to the issues outlined above.	Reason for Change: For consistency with the Town and Country Planning (Local Plan) (England) Regulations 2012.

Proposed Modification/Change Reference Number	Section/page number/para/Policy	Proposed Modification	Reason for modification and SA/SEA Implications
	Para 1.1.6, Page 1		<p>SA/SEA Implications: There are no SA/SEA implications.</p>
CM7	<p>Section 1.2 – Context</p> <p>Paras. 1.2.2-1.2.4 National Planning Policy /Legislation Page 2</p>	<p>1.2.2 The SADPD has been prepared having regard to existing and emerging national planning policy. Relevant national policy included the Plan for Growth published by the Government in March 2011, and emerging policy set out in the Draft National Planning Policy Framework (NPPF) July 2014). published in March 2012. Once adopted the NPPF will <u>which</u> replaces existing national planning policy set out in Planning Policy Statements and Planning Policy Guidance. However, at the time of writing this document, these remain in place.</p> <p>1.2.3 The Draft NPPF sets out the Government's economic, environmental and social planning policies for England and seeks the achievement of to ensure the promotion of sustainable development. In particular, the Draft NPPF emphasises the need to ensure sufficient land is available for economic development and an increased supply of housing. The SADPD is consistent with these principles in that its purpose is to help deliver the development requirements set out in the Core Strategy and the South East Plan including and to enable the delivery of new homes.</p> <p>1.2.4 National planning legislation provides the context for the preparation of Development Plan Documents and includes provisions that enable the Council to secure necessary infrastructure through planning obligations and the Community Infrastructure Levy.</p> <p><u>1.2.4 Paragraph 159 of the NPPF refers to the need for Local Plans to address the need for all types of housing and a cross reference is made to ‘Planning policy for traveller sites’¹. Following the publication of new national policy on this matter, the Council is carrying out an assessment of travellers’ accommodation needs. Relevant targets and</u></p>	<p>Reason for Change: To reflect the publication of the NPPF and to clarify the Council’s intention with regard to meeting the need for Traveller accommodation.</p> <p>SA/SEA Implications: There are no SA/SEA implications.</p>

¹ Planning policy for traveller sites; CLG, March 2012

Proposed Modification/Change Reference Number	Section/page number/para/Policy	Proposed Modification	Reason for modification and SA/SEA Implications
		<p><u>the allocation of any required sites will be dealt with in the new Local Plan that is programmed in the Council's Local Development Scheme.</u></p> <p>In accordance with the DraftNPPF, the SADPD also identifies the relevant infrastructure that will be needed alongside new development following extensive joint working with infrastructure providers. The final NPPF may be amended following the results of public consultation. The content of the SADPD and manner of preparation is consistent with the general principles and direction set out in the DraftNPPF.</p>	
CM8	<p>Section 1.2- Context New sub-section between National Planning Policy / Legislation and Development Plan</p> <p>Page 2</p>	<p><u>Presumption in Favour of Sustainable Development</u></p> <p><u>The presumption in favour of sustainable development is central to the Government's approach to planning as expressed by the National Planning Policy Framework. Core Policy CP1 below embeds this policy in the development plan.</u></p> <p><u>Policy CP1</u></p> <p><u>Presumption in Favour of Sustainable Development</u></p> <p><u>A positive approach to considering development proposals will be taken that reflects the presumption in favour of sustainable development contained in the National Planning Policy Framework. Where appropriate, the Council will work proactively with applicants jointly to seek solutions which mean that proposals can be approved wherever possible, and to secure development that improves the economic, social and environmental conditions within the area.</u></p> <p><u>The development plan is the statutory starting point for decision making. Planning applications that accord with the policies in the development plan for Bracknell Forest (including, where relevant, policies in neighbourhood</u></p>	<p>Reason for Change: To embed the presumption in favour of sustainable development in the SADPD.</p> <p>SA/SEA Implications: New policy has been appraised (see table 2 of this report). As the policy seeks to secure development that improves the economic, social and environmental conditions within the area the overall conclusion is that significant positive effects would be achieved against all 24 of the Sustainability Objectives.</p>

Proposed Modification/Change Reference Number	Section/page number/para/Policy	Proposed Modification	Reason for modification and SA/SEA Implications
		<p><u>development plans) will be approved without delay, unless material considerations indicate otherwise.</u></p> <p><u>Where there are no policies relevant to the application or relevant policies are out of date at the time of making the decision then permission will be granted unless material considerations indicate otherwise – taking into account whether:</u></p> <ul style="list-style-type: none"> • <u>Any adverse impacts of granting permission would significantly and demonstrably outweigh the benefits, when assessed against the policies in the National Planning Policy Framework taken as a whole; or</u> • <u>Specific policies in that Framework indicate that development should be restricted.</u> 	No further changes and/or mitigation required.
CM9	Section 1.2 – Context Para. 1.2.5 Development Plan Page 2	The development plan for the Borough currently consists of includes the South East Plan, the saved policies in the Bracknell Forest Borough Local Plan, 2002, and the Core Strategy Development Plan Document, 2008. Once adopted, the development plan will include the Site Allocations DPD. The determination of planning applications must be made in accordance with the development plan unless material considerations indicate otherwise. It is therefore important that the separate documents that collectively comprise the development plan are not read in isolation.	<p>Reason for Change: The Development Plan consists of more than the documents listed in this paragraph, therefore wording has been amended.</p> <p>SA/SEA Implications: There are no SA/SEA implications.</p>
CM10	Section 1.2 Context South East Plan Page 2 Para 1.2.6	1.2.6 The South East Plan sets out the regional planning policies for the South East. It was approved in 2009 and provides the vision for planning for the region up to 2026. Whilst this document currently forms part of the development plan, the Government has clearly stated its	Reason for Change: To reflect the role of the SADPD as a first step in

Proposed Modification/Change Reference Number	Section/page number/para/Policy	Proposed Modification	Reason for modification and SA/SEA Implications
		<p>intention to revoke Regional Strategies. The Localism Act Bill will allow this to happen and is currently progressing through Parliament. It is possible that Royal Assent will be in April 2012. It is unlikely that the South East Plan will form part of the development plan on adoption of the SADPD.</p> <p><u>1.2.7 The South East Plan was approved in 2009 and provides the vision and regional planning policies for the South East. Policy H1 deals with housing provision and contains a housing requirement of 12,780 net dwellings for Bracknell Forest for the period 2006-2026. Following the Government’s stated intention to revoke Regional Strategies, the Council prepared the SADPD on the basis of the requirement set out in the Core Strategy (10,780 net dwellings) which covers the same plan period. At that time, the SADPD needed to be consistent with the Core Strategy.</u></p> <p><u>1.2.8 The South East Plan had not been revoked at the time the SADPD was submitted to the Secretary of State in June 2012 as further assessment, and consultation on the environmental effects of its revocation had not been completed. Section 24(1)(a) of the Planning and Compulsory Purchase Act 2004, requires local development documents to be in general conformity with the Regional Spatial Strategy.</u></p> <p><u>1.2.9 At the time of preparing this document the South East Plan remained in effect but the process of revoking regional strategies had commenced following the introduction of the necessary legislation in the Localism Act 2011. It is likely that the South East Plan will be revoked early in the period covered by this plan. On the revocation of the South East Plan, the Council will revert to the housing figures in the adopted Core Strategy for the purposes of calculating the five year housing land supply, producing a housing trajectory and monitoring. The Core Strategy target will remain in use for these purposes until such time as a full objective assessment of housing needs for the Borough has been finalised and published.</u></p> <p><u>1.2.10 The South East Plan sets a target of 12,780 homes for Bracknell Forest for the period 2006 – 2026. The Council intends to adopt the SADPD as the first step in meeting that target. This is part of a delivery strategy that includes the production of a</u></p>	<p>meeting the housing requirements of the South East Plan and the publication of the Localism Act.</p> <p>SA/SEA Implications: There are no SA/SEA implications.</p>

Proposed Modification/Change Reference Number	Section/page number/para/Policy	Proposed Modification	Reason for modification and SA/SEA Implications
		<p><u>new Local Plan which will be able to meet any shortfall against the South East Plan target towards the end of the plan period. The Local Plan will also be based on a Strategic Housing Market Assessment including an objective assessment of the Borough's full housing needs. The Local Plan will allocate suitable sites to meet the assessed needs and the housing requirement in the South East Plan, if it remains part of the development plan. Under the circumstances outlined above, this strategy is considered the most effective means of:</u></p> <ul style="list-style-type: none"> • <u>Achieving a plan led approach to development in the Borough</u> • <u>Achieving the objectives of the NPPF and the South East Plan</u> • <u>Identifying a five year supply of housing land and:</u> • <u>Adopting an up to date plan to enable the introduction of the Community Infrastructure Levy.</u> <p><u>1.2.11 This strategy accords with advice from Government that Councils may take account of the policy to revoke Regional Strategies in plan preparation. The Local Plan will look beyond the period of the current Core Strategy and the South East Plan, and will therefore need to re-assess the Borough's current role as a sub-regional hub.</u></p>	
CM11	Section 1.2 – Context Core Strategy Para 1.2.7 Page 3	<p>1.2.7 The Bracknell Forest Core Strategy was adopted in 2008 and provides the framework for future developments in the Borough. Sections of the Core Strategy that are of particular relevance to the SADPD, are the need amount of new housing to be delivered <u>to deliver new housing</u> in the Borough up to 2026 (Policy CS15), the approach to locating future development in the Borough (Policy CS2), the identification of two future locations of development (Policies CS4 and CS5) and policies relating to employment, retail development and the protection of the environment including the Thames Basin Heaths Special Protection Area.</p>	<p>Reason for Change: To reflect the role of the SADPD as a 1st step in meeting the housing requirement of the South East Plan.</p> <p>SA/SEA Implications: There are no SA/SEA implications.</p>

Proposed Modification/Change Reference Number	Section/page number/para/Policy	Proposed Modification	Reason for modification and SA/SEA Implications
CM12	Section 1.2 – Context. Para 1.2.10 Proposals Map Page 3	Proposals Policies Map 1.2.10 The detailed boundaries of the areas within to which the saved policies in the Bracknell Forest Borough Local Plan, the policies in the Core Strategy and subsequent documents apply are illustrated on the adopted Policies Proposals Map. This Map will be formally revised alongside the adoption of this SADPD. Changes to the Policies Proposals Map that result from this document are set out in Appendix X, and the relevant policy context in set out in Section 5 Policies 'Proposals Map Changes'.	Reason for Change: For consistency with The Town and Country Planning (Local Plan) (England) Regulations 2012. SA/SEA Implications: There are no SA/SEA implications.
CM13	Section 1.2 – Context. Sustainability Appraisal & Habitat Regulations Assessment Para 1.2.14 Page 4	Developments of less than 109 (net) dwellings will be required to make financial contributions towards existing SANG and SAMM and take any other measures that are required to satisfy Habitats Regulations, the Council's Thames Basin Heaths SPA Avoidance and Mitigation Strategy and relevant guidance. Developments of 109 (net) dwellings or more will be required to provide a bespoke SANG in perpetuity of at least 8ha per 1,000 new population as well as the other measures identified above. A bespoke SANG must be in place and available for use for the occupants of the new development before the first new dwelling is occupied. Where a scheme is developed in phases, each phase of SANG would need to meet quantitative and qualitative criteria as set out in the Avoidance and Mitigation Strategy. <u>Bespoke SANG packages will need to be agreed with the Council and Natural England.</u>	Reason for Change: In response to comments from Natural England, bespoke SANG packages will need to be agreed with Natural England as well as Bracknell Forest, as the competent Authority. This will improve the consistency with para. 5.16 of the HRA (doc SAL33). SA/SEA Implications: There are no SA/SEA implications.
CM14	Section 1.2 – Context. Preparation Process Para 1.2.16 Page 4	1.2.16 The preparation of this DPD has involved extensive stakeholder and community engagement. The engagement that has been undertaken is consistent with the principles set out in the Council's adopted Statement of Community Involvement, July 2006 (SCI).(11)Stakeholder and community engagement has included the following key stages: <ul style="list-style-type: none"> • Pre production/Regulation 25 public participation/discussions with stakeholders • Stakeholder workshops 	Reason for Change: The Town and Country Planning (Local Plan) (England) Regulations 2012 sets out new requirements for plan preparation: Regulation 25

Proposed Modification/Change Reference Number	Section/page number/para/Policy	Proposed Modification	Reason for modification and SA/SEA Implications
		<ul style="list-style-type: none"> • Public participation on Issues and Options • Local area workshops • Consideration of responses to the Issues and Options document • Consultation on Preferred Options • Consideration of r Responses to the Preferred Options document and of additional technical evidence, resulting were taken into account in preparation of the Draft Submission DPD. 	<p>is no longer relevant in this stage of the process.</p> <p>SA/SEA Implications: There are no SA/SEA implications.</p>

Proposed Modification/Change Reference Number	Section/page number/para/Policy	Proposed Modification	Reason for modification and SA/SEA Implications
SECTION 2 – HOUSING			
Section 2.1 Approach to housing			
CM15	Section 1.3 – Objectives and sub-objectives Para 1.3.1 Page 6	A(i) To ensure an adequate supply of land to deliver the community’s needs for housing based on the plan being a first step in meeting the Core Strategy housing target.	Reason for Change: To reflect the role of the SADPD as a first step in meeting the housing requirements of the South East Plan and the publication of the Localism Act. SA/SEA Implications: There are no SA/SEA implications.
CM16	Section 2.1 – Approach to Housing Why do we have to allocate more land for housing development? Para 2.1.1 Page 7	2.1.1 The Council’s adopted Core Strategy ⁽¹²⁾ identifies that 10,780 ⁽¹³⁾ dwellings are needed in the Borough for the period 2006 - 2026. This is a locally-derived requirement. In dealing with how this requirement is to be met, the Council is required by Government to identify and maintain a rolling 5 year supply of deliverable sites. The SADPD is an important means of implementing the Core Strategy. Any a-Additional requirements resulting from changes to national planning policy (in the emerging-Draft National Planning Policy Framework) or other recent evidence will be dealt with through a review of the Core Strategy New Local Plan ⁽¹⁴⁾ . <u>As described in Section 2 of this document, the South East Plan sets a target of 12,780⁽²⁾ dwellings to be provided in the Borough for the period 2006 – 2026. In meeting this target the Council is required by Government to identify and maintain a rolling 5 year supply of deliverable sites. The SADPD is a first step in meeting a substantial proportion of the housing requirement in the South East Plan. Additional allocations</u>	Reason for Change: The role of the SADPD as a first step in providing for the South East Plan housing requirement. To reflect the content of the NPPF. SA/SEA Implications: There are no SA/SEA implications.

Proposed Modification/Change Reference Number	Section/page number/para/Policy	Proposed Modification	Reason for modification and SA/SEA Implications						
		<u>required to meet the South East Plan target (if it remains in place) or to meet objectively assessed needs (as required by the National Planning Policy Framework) will be made in a new Local Plan.</u>							
CM17	Section 2.1 – Approach to Housing Requirement remaining to be allocated Para 2.1.2-2.1.3, Table 1 & Table 2 Pages 7 and 8	<p>2.1.2 The 10,780 <u>At submission, six years of the plan period had already passed.</u> new homes are required between 2006 and 2026. This means that we are already into the sixth year of the plan period. Account therefore needs to be taken of the homes already built and as well as those <u>planned since all</u> which will contribute to meeting the requirement. <u>12,780 new homes are required between 2006 and 2026.</u> This means subtracting from the South East Plan figure the following:</p> <ul style="list-style-type: none"> homes already completed from 1st April 2006 to 30th September 2011 <u>31st March 2012 (2,098)</u>; homes with planning permission (commitments) on small, medium and large sites at 30th September 2011 <u>31st March 2012</u> and <u>including</u> the number that were under construction or yet to be started (2,317) homes accepted in principle including the homes which are already planned on sites identified in the Core Strategy at Amen Corner and Warfield (2,926 5). <p>2.1.3 These sources amount to 7,346 <u>7,340</u> homes. When these are subtracted from the total requirement, it leaves sites for a further 3,464 <u>5,440</u> homes to be found by 2026. These figures are summarised in the figure <u>table</u> below, and in Appendix 2: 'Housing Trajectory' relating to land supply data.</p> <p>Table 1 How will the Housing Requirement be met?</p> <table border="1" data-bbox="689 1145 1789 1329"> <tbody> <tr> <td data-bbox="689 1145 904 1206">1,953 2,098 <u>2,098</u></td> <td data-bbox="904 1145 1789 1206">Homes completed between 2006 and 2011 <u>2012</u></td> </tr> <tr> <td data-bbox="689 1206 904 1267">2,317</td> <td data-bbox="904 1206 1789 1267">Homes with planning permission, (small, medium & large sites) at 31st March 2012</td> </tr> <tr> <td data-bbox="689 1267 904 1329">2,926 2,925 <u>2,925</u></td> <td data-bbox="904 1267 1789 1329">Homes accepted in principle and homes <u>planned</u> at Amen Corner and Warfield</td> </tr> </tbody> </table>	1,953 2,098 <u>2,098</u>	Homes completed between 2006 and 2011 <u>2012</u>	2,317	Homes with planning permission, (small, medium & large sites) at 31st March 2012	2,926 2,925 <u>2,925</u>	Homes accepted in principle and homes <u>planned</u> at Amen Corner and Warfield	<p>Reason for Change: To reflect the SEP target and results of commitments exercise at 31st March 2012.</p> <p>SA/SEA Implications: There are no SA/SEA implications.</p>
1,953 2,098 <u>2,098</u>	Homes completed between 2006 and 2011 <u>2012</u>								
2,317	Homes with planning permission, (small, medium & large sites) at 31st March 2012								
2,926 2,925 <u>2,925</u>	Homes accepted in principle and homes <u>planned</u> at Amen Corner and Warfield

Proposed Modification/Change Reference Number	Section/page number/para/Policy	Proposed Modification	Reason for modification and SA/SEA Implications
	Land at Amen Corner North, Binfield Phasing Para.2.4.12 - 2.4.13 Page 25	<p>2.4.12 The development of this site needs to be considered in relation to the development of land at Amen Corner South (Primary School) and Blue Mountain (Secondary School and community facilities) as provision of supporting infrastructure will need to be co-ordinated. The owners/developers of land at Amen Corner South are currently engaged in discussions over the future form of the development with a view to submitting a planning application in 2012 2013. Provided that an acceptable scheme can be negotiated, it is likely that work could commence on the development of this site in late 2013 2014. Although more dependent on the SADPD process, the progression of development on land at Blue Mountain is a priority due to the need for the new Secondary School proposed on that site.</p> <p>2.4.13 In view of this and the fact that Amen Corner North involves the development of greenfield land, the Housing Trajectory shows this site beginning to deliver in 2015/16 (assuming the timely delivery of a SANG) and continuing over the subsequent four years delivering a couple of years after the other sites. The development of this site may also require a satisfactory off-site SANG solution.</p>	<p>this section.</p> <p>To reflect its availability.</p> <p>SA/SEA Implications: There are no SA/SEA implications.</p>

A consortium is preparing plans for a substantial portion of the site and a further large portion is being progressed by a single developer. An SPD is being prepared and it is hoped that it will be was adopted early in 2012. Whilst a considerable amount of infrastructure needs to be put in place, including a Secondary School on land at Blue Mountain, it is envisaged that the site will start delivering housing in 2014/2015 2015/2016 and continue to deliver over the plan period for the following 8-9 years.	Reason for Change: To reflect the adoption of the Warfield and the most recent assessment of the sites' likely timing of delivery. SA/SEA Implications: There are no SA/SEA implications
CM50	Section 2.5 – Allocation of land covered by Core Strategy Policies CS4 & CS5 Land at Warfield Phasing Page 33	Change sub-heading Phasing <u>Delivery</u>	Reason for Change: To better reflect the content of this section. SA/SEA Implications: There are no SA/SEA implications.

Proposed Modification/ Change Reference Number	Section/page number/para/Policy	Proposed Modification	Reason for modification and SA/SEA Implications
CM51	<p>Section 2.5 – Allocation of land covered by Core Strategy Policies CS4 & CS5 Land at Warfield</p> <p>Policy SA9 Land at Warfield</p>	Add settlement Boundaries to the Proposals Policies Map (Policies Map) See Appendix E	<p>Reason for Change: To give greater certainty regarding where development will be located within the allocation</p> <p>SA/SEA Implications: The majority of the new settlement boundary will enclose land earmarked for development. However there will be SANG and Open Space provision enclosed by the settlement boundary. This would order provide flexibility and is not unusual. Land designated as SANG and Open Space would not be developed. SANG and Open Space can be located within the settlement boundary. The concept plan was subject to SA/SEA during the Warfield SPD process (SAL83). As such no further SA/SEA work is considered necessary.</p>

SECTION 3 – EMPLOYMENT			
Section 3.2 Employment sites within defined settlement boundaries			
CM52	Section 3 Employment 3.2 Employment sites within defined settlement boundaries Para 3.2.1 Page 34	Development Plan policies seek to focus new employment development on Bracknell Town Centre and the defined employment areas, as shown on the Proposals Policies Map. The Core Strategy policy relating to defined employment areas (Policy CS20) seeks to protect them from non-employment uses. In view of the over-supply of offices and the need for land for housing, the extent of land covered by this designation has been reviewed to identify areas where housing might be acceptable. As a result, a number of changes are made to the boundaries of defined employment areas in settlements. These changes are discussed in more detail in 5 ' Proposals Policies Map changes' and boundaries are shown on the Proposals Policies Map.	Reason for Change: For clarity and consistency with The Town and Country Planning (Local Plan) (England) Regulations 2012. SA/SEA Implications: There are no SA/SEA implications
Section 3.3 Employment sites outside defined settlement boundaries			
CM53	Section 3 Employment 3.3 Employment sites outside defined settlement boundaries Page 35	3.3 Employment sites outside defined settlements-boundaries	Reason for Change: Amended to correct a typographical error. SA/SEA Implications: There are no SA/SEA implications.
CM54	Section 3 Employment 3.3 Employment sites outside defined settlement	New paragraphs to be added after 3.3.1 and before 3.3.2 relating to Broadmoor: <u>(new para) The Broadmoor Hospital site was also one such designation, but the designation is now being removed from the site, due to the inclusion of the area within Policy SA4 allocating the site as an urban extension for mixed use development. The part of the site which related</u>	Reason for Change: To reflect that the employment designation is being removed from the TRL site and to reflect

Proposed Modification/ Change Reference Number	Section/page number/para/Policy	Proposed Modification	Reason for modification and SA/SEA Implications
	boundaries Page 35	<p><u>to Policy E12 will now be included within the defined settlement area. The site will therefore retain an employment designation but it will be under Core Strategy Policies CS19 and CS20 which apply within settlements.</u></p> <p><u>(new para) As a result of the Policy E12 designation being removed from both the TRL and Broadmoor sites, Policy E12 will be cancelled by the SADPD, as the only Policy E12 notations on the Policies Map relate to Crowthorne Business Estate and Broadmoor.</u></p>	<p>that the employment area at Broadmoor would be located within the defined settlement.</p> <p>SA/SEA Implications: This change to Employment Land designation at Broadmoor and TRL provides a level of flexibility that was acknowledged in previous appraisal work against policy SA13 Changes to the proposals map. Therefore this change would have no SA/SEA implications.</p>
Policy SA10			
CM55	Section 3 Employment 3.3 Employment sites outside defined settlement boundaries Policy SA10 Royal Military Academy, Sandhurst Page 35	The area of land shown on the Proposals Policies Map at the Royal Military Academy Sandhurst is suitable for built development to meet operational defence needs provided that:	<p>Reason for Change: For clarity and consistency with The Town and Country Planning (Local Plan) (England) Regulations 2012.</p> <p>SA/SEA Implications: There are no SA/SEA implications</p>

Proposed Modifications/Change Reference Number	Section/page number/para/Policy	Proposed Modification	Reason for modification and SA/SEA Implications
SECTION 4 – RETAIL			
Section 4.1 – Bracknell Town Centre			
CM56	Section 4 – Retail 4.1 – Bracknell Town Centre Para 4.1.4, and footnote 50, Page 36	4.1.4 Under the definitions in the NPPF PPS4 ⁽⁵⁰⁾ , the Peel Centre meets the definition of an edge-of-centre location. Therefore the Peel Centre is designated as an edge-of-centre location suitable for retail warehouse development. Footnote 50 Planning Policy Statement 4: Planning for Sustainable Economic Growth National Planning Policy Framework, Annex 2: Glossary.	Reason for Change: To reflect that content of the NPPF, which replaces PPS4: SA/SEA Implications: There are no SA/SEA implications
CM57	Section 4 Retail 4.1 Bracknell Town Centre Policy SA11 Page 36	Replace identified with allocated. Land in Bracknell Town Centre as shown on the Proposals Policies Map is identified allocated for a mixed use development including retail business, residential, leisure and other ancillary development.	Reason for Change: For clarity and consistency with The Town and Country Planning (Local Plan) (England) Regulations 2012. SA/SEA Implications: There are no SA/SEA implications
CM58	Section 4 Retail 4.1 Bracknell Town Centre Policy SA12 The Peel Centre Page 37	Replace indetified with allocated The Peel Centre is identified allocated as an edge-of-centre retail warehouse park.	Reason for Change: For clarity. SA/SEA Implications: There are no SA/SEA implications
CM59	Section 4 Retail Other changes	4.1.6 As a result of the preparation of the SADPD a number of changes are identified to other retail boundaries. These are:	Reason for Change: In recognition that it is not

SECTION 5 – POLICIES MAP CHANGES			
CM61	Section 5 – Proposals Map Changes Page 38	<p>5 Proposals Policies map changes</p> <p>5.1.1 The preparation of the Site Allocations DPD has included the addition, deletion and amendment of a number of policy boundaries on the Proposals Policies Map. Not all of these boundaries relate to specific policies in this DPD; some relate to policies in the Core Strategy and others to saved policies in the Local Plan. These changes are summarised below and listed in Table 3 ‘Summary of changes to the Proposals Policies Map: additions, amendments and deletions’. Upon adoption of the SADPD these changes will be incorporated into a revised Proposals Policies Map.</p>	<p>Reason for Change: For consistency with The Town and Country Planning (Local Plan) (England) Regulations 2012.</p> <p>SA/SEA Implications: There are no SA/SEA implications</p>
CM62	Section 5 – Proposals Map Changes 5.2.1 Page 38	<p>To support the policies in the Site Allocations DPD, a number of amendments have been made to the settlement boundaries. <u>These amendments involve:</u></p> <ul style="list-style-type: none"> • <u>housing sites previously located on the edge of settlement (see Policy SA3);</u> • <u>urban extensions; and,</u> • <u>the incorporation of a number of school buildings that were previously not considered part of the settlement but which in reality relate well to the built up area</u> <p>In particular, these include amendments to incorporate housing sites previously located on the edge of settlements (see Policy SA3). Additional amendments to the settlement boundaries include the incorporation of a number of school buildings that were previously not considered part of the settlement but which in reality relate well to the built up area</p>	<p>Reason for Change: To provide clarity regarding what the settlement boundary amendments relate to.</p> <p>SA/SEA Implications: There are no SA/SEA implications</p>

Proposed Modifications/Change Reference Number	Section/page number/para/Policy	Proposed Modification	Reason for modification and SA/SEA Implications
CM63	Section 5 – Proposals Map Changes 5.2.2 Page 38	<p>To support the allocation of land for urban extensions, boundaries have been added to the Proposals Maps for the following sites:</p> <p><u>In addition to defining settlement boundaries for urban extensions that reflect the likely extent of buildings, the extent of land to be allocated has been added to the Policies Map for the following sites:</u></p> <ul style="list-style-type: none"> • Land at Broadmoor, Crowthorne (Policy SA4) • Land at Transport Research Laboratory Laboratory, Crowthorne (Policy SA5) • Land at Amen Corner North, Binfield (Policy SA6) • Land at Blue Mountain , Binfield (Policy SA7) 	<p>Reason for Change: For consistency with The Town and Country Planning (Local Plan) (England) Regulations 2012 & correct typing error.</p> <p>SA/SEA Implications: There are no SA/SEA implications</p>
CM64	Section 5 – Proposals Map Changes 5.2.3 Page 38	<p>Due to lack of detail about the precise location of buildings, it has not been possible to define settlement boundaries for these sites at this stage. This will be done through a future Development Plan Document.</p>	<p>Reason for Change: This has been incorporated into para 5.2.2.</p> <p>SA/SEA Implications: There are no SA/SEA implications</p>
CM65	Section 5 Proposals Map Changes 5.2.4 Other Housing Sites Page 38	<p>5.2.4 5.2.3 To support the allocation of housing sites on the edge of settlements and within existing settlements, boundaries for sites have been added to the Proposals Policies Map. This includes:</p>	<p>Reason for Change: Paragraph renumbered as a result of deleting para 5.2.3.</p> <p>For consistency with The Town and Country Planning (Local Plan) (England) Regulations 2012.</p>

Proposed Modifications/Change Reference Number	Section/page number/para/Policy	Proposed Modification	Reason for modification and SA/SEA Implications
			SA/SEA Implications: There are no SA/SEA implications
CM66	Section 5 Proposals Map Changes 5.2.5 – Employment Sites Page 39	5.2.5 5.2.4 To support the delivery of housing and to reflect evidence of an over supply of offices, a number of changes have been made to the boundaries of defined employment areas and one identified major employment sites (Crowthorne Business Estate) has been deleted. <u>As the identified major employment area for Broadmoor is now shown within the defined settlement, the notation for an 'identified major employment site' has been removed and replaced with a 'defined employment area' designation.</u> A new policy boundary is shown for the Royal Military Academy Sandhurst (to support Policy SA11).	Reason for Change: Paragraph renumbered as a result of deleting para 5.2.3. Clarity also provided in relation to Broadmoor employment areas as a result of this site now being included within the defined settlement. SA/SEA Implications: Issues regarding SEA and amendments to employment designation have been discussed under minor change CM54.

Proposed Modifications/Change Reference Number	Section/page number/para/Policy	Proposed Modification	Reason for modification and SA/SEA Implications
CM67	<p>Section 5 – Proposals Map Changes</p> <p>Section 5.2 – Summary of Changes</p> <p>Para 5.2.6 (Retail sites), Page 39</p>	<p>5.2.6 5.2.5 In order to reflect redevelopment proposals for Bracknell Town Centre appropriate changes have been made to the Bracknell Town Centre boundary. Amendments have also been made to some of the primary and secondary frontages. A new designation has been added for the Peel Centre which has been redefined in policy terms as an 'edge of centre location'. Some changes to the extent of the boundary of the centre at Crowthorne and retail frontage designations have been made as a part of this document, along with a number of amendments to the boundaries of smaller retail centres in the Borough. PPS 4 was published after the adoption of the Bracknell Forest Borough Local Plan and Core Strategy. The terminology used to describe centres is at variance to that used in relevant local policies. It is therefore proposed to amend the terms used to describe the size of centre in the retail hierarchy for consistency in approach. This means replacing the term 'Neighbourhood and Village Centre' with 'Local Centre' and 'Local Parades' with 'Neighbourhood Centres'. For the avoidance of doubt the changes made establish the relevant areas for the application of Core Strategy Policies CS3, CS21, CS22 and saved Bracknell Forest Borough Local Plan Policies E1, E7, E8, E9, E10 and E11. These changes are mapped in.</p>	<p>Reason for Change: Paragraph renumbered as a result of deleting para 5.2.3.</p> <p>Changes to reflect the publication of the NPPF, which supersedes PPS4:</p> <p>In recognition that it is not possible to change the terminology in an adopted policy.</p> <p>This will be clarified in the Policies Map.</p> <p>SA/SEA Implications: There are no SA/SEA implications</p>
CM68	<p>Section 5 Proposals Map Changes</p> <p>5.2.8 Open Space of Public Value</p> <p>Page 39</p>	<p>5.2.8 5.2.7 Core Strategy Policy CS8 relates to recreation and culture and favours development that improves and maintains existing recreational facilities. Recreational facilities are defined in paragraph 99 of the Core Strategy and the definition includes Open Space of Public Value (OSPV) (both active and passive). Due to inconsistencies in the way in which this notation was shown on the Proposals Policies Map the opportunity has been taken to remove this notation as part of the preparation of this Site Allocations DPD. However, the policy in the Core Strategy remains and will continue to apply to all sites that contain features specified in the OSPV definition within sub-section 1 of the Core Strategy paragraph 99.</p>	<p>Reason for Change: Paragraph renumbered as a result of deleting para 5.2.3.</p> <p>For consistency with The Town and Country Planning (Local Plan) (England) Regulations 2012</p>

Proposed Modifications/Change Reference Number	Section/page number/para/Policy	Proposed Modification	Reason for modification and SA/SEA Implications
			<p>SA/SEA Implications: There are no SA/SEA implications.</p>
CM69	<p>Section 5 Proposals Map Changes Conservation Areas Page 39</p>	<p>5.2.8 Conservation Areas are designated under the provisions of Section 69 of the Planning (Listed Buildings and Conservation Areas) Act 1990. The Act defines Conservation Areas as 'areas of special architectural or historic interest the character or appearance of which it is desirable to preserve or enhance'. Bracknell Forest has five Conservation Areas:</p> <ul style="list-style-type: none"> • Warfield • Easthampstead • Winkfield Village • Winkfield Row • Church Street, Crowthorne <p>5.2.9 The boundaries of the Conservation Areas have been added to the Proposals Policies Map for completeness.</p>	<p>Reason for Change: Add in paragraph numbers (missing from previous version)</p> <p>For consistency with The Town and Country Planning (Local Plan) (England) Regulations 2012</p> <p>SA/SEA Implications: There are no SA/SEA implications</p>
CM70	<p>Section 5 Proposals Map Changes Local Wildlife Sites Page 40</p>	<p>In line with DEFRA (53) guidance, the Berkshire Nature Conservation Forum confirmed the change in name of Wildlife Heritage Sites to Local Wildlife Sites in February 2009. The definition of LWS remains the same. They are designated in recognition of their high nature conservation value in a regional or local context. LWSs are defined on the Proposals Map.</p>	<p>Reason for Change: In recognition that it is not possible to change the terminology in an adopted policy, this will be clarified in the Policies Map.</p> <p>SA/SEA Implications: There are no SA/SEA implications</p>

SECTION 6 – PHASING DELIVERY & IMPLEMENTATION			
CM79	Section 6 – Delivery, phasing and implementation Infrastructure Delivery Para 6.0.3 - 6.0.4 Page 46	<p>6.0.3 Core Strategy Policy CS6 requires new development to contribute towards the infrastructure needed to support growth in the Borough and mitigate its impacts. One of the mechanisms for delivering this Policy is through an adopted SPD on Limiting the Impact of Development (LID) (July 2007), which is likely to be updated or replaced during the lifetime of the Site Allocations DPD. A definition of infrastructure for planning purposes is included within the Glossary. Infrastructure will be secured through the use of planning obligations and/or through the Community Infrastructure Levy (CIL). This is a tariff based system of developer contributions which will be used to deliver infrastructure required to support development in the Borough. The Council anticipates that p Preparation of a CIL Charging Schedule will start started at the end of 2011 with adoption in the summer Autumn of 2013.</p> <p>6.0.4 The Site Allocations DPD is supported by an Infrastructure Delivery Plan (IDP) (November 2011) which identifies, as far as possible, the infrastructure needs associated with the development of major extensions to settlements allocated in this document. The IDP has been prepared in partnership with key infrastructure providers including for example the Highways Agency, Natural England and the utility companies. Schedules of infrastructure requirements have been prepared for each of the major extensions to settlements. Key elements of infrastructure are included within each of the relevant policies.</p>	<p>Reason for Change: To reflect the latest position.</p> <p>To reflect the fact that the IDP is a living document that will change as new information becomes available.</p> <p>SA/SEA Implications: There are no SA/SEA implications.</p>
CM80	Section 6 Delivery, Phasing & Implementation Infrastructure Delivery Para. 6.0.5 Page 46	<p>6.0.5 The IDP is a 'living' document and will be kept up to date through ongoing discussions with infrastructure providers. An Infrastructure Reference Group has been established as a sub group of the Bracknell Forest Partnership (Local Strategic Partnership) to facilitate effective infrastructure planning in the Borough. A key part of infrastructure planning is to ensure that levels of infrastructure required from developers are set at a rate that makes it viable to develop and therefore ensures the delivery of development on a the-site takes place. Whilst identifying infrastructure requirements at this early stage in the planning process should help to ensure that they are built into developers' plans and financial models, it may</p>	<p>Reason for Change: Amended to correct a typographical error.</p> <p>SA/SEA Implications: There are no SA/SEA implications.</p>

Proposed Modifications/Change Reference Number	Section/page number/para/Policy	Proposed Modification	Reason for modification and SA/SEA Implications
		still be necessary to prioritise infrastructure requirements. It is anticipated that this would only be in exceptional circumstances and the Council would expect that any flexibility in provision would only be agreed following a thorough understanding of the viability of the development and the impact of any under-provision.	
CM81	Section 6 Delivery, phasing & implementation Housing Delivery Para. 6.0.6 & 6.0.7 Page 47	<p>6.0.6 An important element of delivery is to ensure that there is a continuous supply of land available for housing. In identifying the likely phasing delivery of sites (see supporting text to housing policies), account has been taken of the likely timescale for delivery bearing in mind availability of land and the need for any supporting infrastructure. and the need to prioritise previously developed land as far as is practicable in line with the Core Strategy. The rate of building will also be affected by market conditions and other external factors such as the number of developers involved in developing a site. Consideration has also been given to the need to to ensure that all sites are delvelopable and to include a rolling 5 year supply of deliverable sites <u>(including an appropriate buffer) until such time as a new Local Plan is adopted. The position on housing land supply will be re-assessed during the production of the new Local Plan.</u></p> <p>6.0.7 The broad phasing of housing land is supported by a Housing Trajectory (see Appendix 2: Housing) which demonstrates how existing commitments and proposed allocations contribute year by year to help meeting the housing requirement .Information about the timing of delivery has been informed by discussions and information supplied by landowners/developers/infrastructure providers and the SHLAA. To help achieve the successful delivery of housing and associated infrastructure at the proposed timescales effective working partnerships will be put in place. These will require the involvement of developers, statutory bodies, Registered Providers and the Council.</p>	<p>Reason for Change: To more accurately reflect the position. To reflect the role of SADPD as a first step in meeting the housing requirements of the South East Plan.</p> <p>SA/SEA Implications: There are no SA/SEA implications.</p>
CM82	Section 6 Delivery, phasing and implementation Monitoring Para 6.0.8	In order to ensure that the policies in this document are effective in delivering the overarching long term vision for the Borough set out in the Core Strategy, and the objectives set out in this document (Section 1) and in the Core Strategy it is necessary to ensure that there is appropriate monitoring in place. Each year t The Council must produce an Authority produces an Annual Monitoring Report (AMR) which monitors the effectiveness of planning policies and whether they are meeting the Council's vision and objectives. Where a policy	<p>Reason for Change: To reflect the provision in the Localism Act.</p> <p>SA/SEA Implications: There are no SA/SEA</p>

Proposed Modifications/Change Reference Number	Section/page number/para/Policy	Proposed Modification	Reason for modification and SA/SEA Implications
	Page 47	<u>specifies a number relating to a period (for example, net additional dwellings) the report must specify the number achieved in the monitoring period.</u>	implications.
CM83	Section 6 Delivery, Phasing & Implementation Infrastructure Delivery Para. 6.0.9 Page 47	6.0.9 The projected delivery of new houses and broad phases are set out in the Housing Trajectory and will be monitored each year, by gathering data on permissions granted, starts and completions, through the commitments exercise. Use will also be made of indicators as set out in the schedule below. Depending on the results of monitoring it may be necessary to adjust the phasing projected delivery of sites. The Council is also committed to a review of the Core Strategy/ new Local Plan which will enable adjustments to delivery to take place provide an opportunity to reconsider the housing land supply.	Reason for Change: To reflect the change in terminology in the NPPF (no longer reference to Core Strategies). SA/SEA Implications: There are no SA/SEA implications.
CM84	Section 6 Delivery, phasing & implementation Table 4 Monitoring Framework Page 48-49	A(i) To ensure an adequate supply of land to deliver the community's needs for housing based on the plan being a first step in meeting the Core Strategy housing target.	Reason for Change: To reflect the role of the SADPD as a first step in meeting the housing requirements of the South East Plan and the publication of the Localism Act. SA/SEA Implications: There are no SA/SEA implications.

			There are no SA/SEA implications.
CM89	Glossary and Abbreviations Table 5 Term: Defined Employment Area Pages 50-60	Distinct areas within settlements where there is a concentration of employment. Development for employment generating uses (which in terms of the Core Strategy is business, industrial, distribution and storage uses) is directed to these areas and Bracknell Town Centre. These areas are defined on the Proposals Policies Map.	Reason for Change: For clarity and consistency with The Town and Country Planning (Local Plan) (England) Regulations 2012. SA/SEA Implications: There are no SA/SEA implications.
CM90	Glossary and Abbreviations Table 5 Term: Defined Settlement Pages 50-60	Existing built up areas (town and villages). These areas are defined on the Proposals Policies Map.	Reason for Change: For clarity and consistency with The Town and Country Planning (Local Plan) (England) Regulations 2012. SA/SEA Implications: There are no SA/SEA implications.

Proposed Modification/Change Reference Number	Section/page number/para/Policy	Proposed Modification	Reason for modification and SA/SEA Implications
CM91	Glossary and Abbreviations Table 5 Term: Development Plan Pages 50-60	The d <u>D</u> evelopment p <u>P</u> lan for the Borough currently consists of the South East Plan, the saved policies in the Bracknell Forest Borough Local Plan and the Core Strategy. Once adopted, the d <u>D</u> evelopment p <u>P</u> lan will include the SADPD. The South East Plan will no longer form part of the development plan following enactment of the Localism Bill. <u>The Localism Act includes the mechanism for abolition of Regional Spatial Strategies (the South East Plan).</u> The determination of planning applications must be made in accordance with the d <u>D</u> evelopment p <u>P</u> lan unless material considerations indicate otherwise.	Reason for Change: To reflect the enactment of the Localism Act: SA/SEA Implications: There are no SA/SEA implications.
CM92	Glossary and Abbreviations Table 5 Term: Draft National Planning Policy Framework Pages 50-60	Term: Draft National Planning Policy Framework Definition: One of the Coalition Government's proposals for reforms of the planning system, is to make national planning policy less complex and more Draft National Planning NPPF Policy Framework accessible, and to promote sustainable growth. The draft NPPF is a single document that sets out the Government's economic, environmental and social planning policies for England. Taken together, these policies articulate the Government's vision of sustainable development. The draft NPPF prioritises the role of planning in supporting economic growth.	Reason for Change: To reflect the publication of the NPPF. SA/SEA Implications: There are no SA/SEA implications.
CM93	Glossary and Abbreviations Table 5 Term: Green	This is t <u>The</u> creation management and protection of green spaces in built and urban environments which includes, but is not limited to, parks and gardens, natural and semi-natural urban green spaces, green corridors which link spaces and outdoor sports facilities. The primary function of GI is to conserve and enhance biodiversity, and support healthy living by increasing outdoor	Reason for Change: For clarity. SA/SEA Implications: There are no SA/SEA

Proposed Modification/Change Reference Number	Section/page number/para/Policy	Proposed Modification	Reason for modification and SA/SEA Implications
	Infrastructure Pages 50-60	recreational opportunities. GI also has an important role to play as one of many tools that can be used to offset the effects of climate change and reduce flood risk.	implications.
CM94	Glossary and Abbreviations Table 5 Term: Local Development Framework Pages 50-60	The collection of documents produced by a Council to guide development and the use of land in the Borough. The LDF is made up of Development Plan Documents (DPDs) which contain the main policies and Supplementary Planning Documents (SPDs) containing supplementary guidance on implementation of the policies. The LDF also comprises the Proposals Policies Map, plus other documents such as Local Development Scheme, Annual Monitoring Report (AMR) and the Statement of Community Involvement (SCI).	Reason for Change: For clarity and consistency with The Town and Country Planning (Local Plan) (England) Regulations 2012. SA/SEA Implications: There are no SA/SEA implications.
CM95	Glossary and Abbreviations Table 5 Term: Local Wildlife Sites Pages 50-60	Areas identified as having a nature conservation interest. These areas are defined on the Proposals Policies Map.	Reason for Change: For clarity and consistency with The Town and Country Planning (Local Plan) (England) Regulations 2012. SA/SEA Implications: There are no SA/SEA implications.
CM96	Glossary and Abbreviations	Update to reflect that this is now an Act: Term: Localism Bill Act	Reason for Change: To reflect the enactment of the Localism Act:

Proposed Modification/Change Reference Number	Section/page number/para/Policy	Proposed Modification	Reason for modification and SA/SEA Implications
	Table 5 Term: Localism Bill Pages 50-60	Definition: The Localism Bill is proposed legislation covering Act received Royal Assent in November 2011 and covers a wide range of local government and other matters. The principle of localism is that power and resources should be transferred from central government to the local level. It is based on the principle that decisions should be taken as closely as possible to the people they affect. The Localism Bill will be the Act includes the mechanism by which Regional Strategies will be abolished.	SA/SEA Implications: There are no SA/SEA implications.
CM97	Glossary and Abbreviations Table 5 Term: Major Employment Site Pages 50-60	These are major employment areas located outside of the defined settlement. These areas are defined on the Proposals Policies Map.	Reason for Change: For clarity and consistency with The Town and Country Planning (Local Plan) (England) Regulations 2012. SA/SEA Implications: There are no SA/SEA implications.
CM98	Glossary and Abbreviations Table 5 Term: Planning Policy Guidance Note /Planning Policy Statement Pages 50-60	Remove definitions of PPSs and PPGs	Reason for Change: These been replaced by the NPPF. To reflect replacement by NPPF. SA/SEA Implications: There are no SA/SEA implications.
CM99	Glossary and	Primary frontages are likely to include a high proportion of retails uses. Secondary frontages	Reason for Change:

Proposed Modification/Change Reference Number	Section/page number/para/Policy	Proposed Modification	Reason for modification and SA/SEA Implications
	Abbreviations Table 5 Term: Primary and Secondary Frontages Pages 50-60	provide greater opportunities for a delivery of uses. These are defined on the Proposals <u>Policies</u> Map.	For clarity and consistency with The Town and Country Planning (Local Plan) (England) Regulations 2012. SA/SEA Implications: There are no SA/SEA implications.
CM100	Glossary and Abbreviations Table 5 Term: Primary Shopping Area Pages 50-60	Defined area where retail development is concentrated. It generally comprises the primary shopping frontage (and those secondary frontages which are contiguous and closely related to the primary shopping frontage). These areas are defined on the Proposals <u>Policies</u> Map.	Reason for Change: For clarity and consistency with The Town and Country Planning (Local Plan) (England) Regulations 2012. SA/SEA Implications: There are no SA/SEA implications.
CM101	Glossary and Abbreviations Table 5 Term Proposals Map Pages 50-60	Proposals <u>Policies</u> Map	Reason for Change: For clarity and consistency with The Town and Country Planning (Local Plan) (England) Regulations 2012.

Proposed Modification/Change Reference Number	Section/page number/para/Policy	Proposed Modification	Reason for modification and SA/SEA Implications
			SA/SEA Implications: There are no SA/SEA implications.
CM102	Glossary and Abbreviations Table 5 Term: Site Allocations Development Plan Document Pages 50-60	This document helps meet the strategic housing requirement and delivers the vision and objectives of the Core Strategy, by identifying sites for future housing development in the Borough; ensuring that appropriate infrastructure is identified alongside new development; and revises the boundaries of certain designations shown on the Proposals Policies Map e.g. defined employment areas. Once adopted it will form part of the LDF.	Reason for Change: For clarity and consistency with The Town and Country Planning (Local Plan) (England) Regulations 2012. SA/SEA Implications: There are no SA/SEA implications.
CM103	Glossary and Abbreviations Table 5 Term: Sites of Special Scientific Interest Pages 50-60	Areas of special interest by reason of their flora, fauna, geological or physiological features. They are protected under the Wildlife and Countryside Act. These areas are defined on the Proposals Policies Map.	Reason for Change: For clarity and consistency with The Town and Country Planning (Local Plan) (England) Regulations 2012. SA/SEA Implications: There are no SA/SEA implications.
CM104	Glossary and Abbreviations Table 5	The SEP sets out the regional planning policies for the south east. It was approved in 2009 and sets out the vision for planning for the region up to 2026. Whilst this document currently forms part of the development plan, the Government has clearly stated its intentions to revoke	Reason for Change: To reflect that the Localism Bill is now an Act.

Proposed Modification/Change Reference Number	Section/page number/para/Policy	Proposed Modification	Reason for modification and SA/SEA Implications
	Term: South East Plan Pages 50-60	Regional Spatial Strategies (RSSs). <u>The Localism Act confers powers to the Secretary of State to abolish RSSs,</u> in the Localism Bill. This Bill is currently progressing through Parliament and it is likely that the South East Plan will no longer be part of the development plan before the SADPD is adopted <u>plan period ends.</u>	SA/SEA Implications: There are no SA/SEA implications.
CM105	Glossary and Abbreviations Table 5 Term: Soundness Pages 50-60	A local development document has to meet the tests of soundness in an examination before it is finally approved. The current definition in PPS12 (Local Spatial Planning) is: <ul style="list-style-type: none"> • Justified – a document must be founded on a credible evidence base and be the most appropriate strategy when considered against reasonable alternatives • Effective – a document must be deliverable, flexible and able to be monitored. <p>The Draft NPPF contains the following definition of soundness, which is capable of being a material consideration. Plans should be:</p> <ul style="list-style-type: none"> • Positively prepared – the plan should be prepared based on a strategy which seeks to meet objectively assessed development and infrastructure requirements, including unmet requirements from neighbouring authorities where it is practical reasonable to do so, and consistently with the presumption in favour of achieving sustainable development • Justified – the plan should be the most appropriate strategy, when considered against the reasonable alternatives, based on proportionate evidence base • Effective – the plan should be deliverable over its period and based on effective joint working on cross-boundary strategic priorities; and • Consistent with national policy – the plan should enable the delivery of sustainable development in accordance with the policies in the Framework. 	Reason for Change: Amend definition to reflect that the NPPF has been published which replaces PPS12. SA/SEA Implications: There are no SA/SEA implications.
CM106	Glossary and Abbreviations Table 5	Defined area, including the primary shopping centre area and areas of predominantly leisure, business and other main town centre uses within or adjacent to the primary shopping area. These areas are defined on the Proposals Policies Map.	Reason for Change: For clarity and consistency with The Town and Country Planning (Local Plan)

Proposed Modification/Change Reference Number	Section/page number/para/Policy	Proposed Modification	Reason for modification and SA/SEA Implications
	Term: Town Centre Pages 50-60		(England) Regulations 2012. SA/SEA Implications: There are no SA/SEA implications.

APPENDIX 9 – LIST OF BACKGROUND STUDIES			
CM197	Appendix 9: List of Background Studies Strategic Flood Risk Assessment Page 150	Updates the SFRA previously carried out by Entec in August 2006 (in support of the Core Strategy). The SFRA is was carried out in accordance with Planning Policy Statement 25 (PPS25): <i>Development and Flood Risk</i> (March 2010). The document sets out the flood risk for the Borough. In general the risk of flooding is low. Recommends that given the large proportion of the Borough within Flood Zone 1, that the allocation of new development should avoid encroaching on the floodplain. Where development within Flood Zones 2, 3a and 3b is unavoidable the sequential approach of PPS25 must be followed. The document also assesses the 8 Broad Areas identified at the Issues and Options (SADPD Participation) Stage: only two area (East Binfield and North Warfield) are located within Flood Zones 2 to 3b. For these Broad Areas it is recommended that either the land be left in its natural state, or land uses such as parks or playing fields be allocated here as these can be allowed to flood, thus avoiding the loss of floodplain area. However, this should not reduce the importance of flood risk in the planning process. The impact of climate change on fluvial flooding and rainfall runoff should be a high priority in development planning. Concluded that based on the Borough's future development needs and the proposed development sites, it was found there is sufficient land in Zone 1 to preclude the need to direct strategic new development to any of the higher risk flood zones.	Reason for Change: Due to the publication of the NPPF which replaces the previous suite of PPGs and PPSs, update to reflect that the SFRA was (rather than is) carried out in accordance with PPS25. SA/SEA Implications: There are no SA/SEA implications
CM198	Appendix 9: List of Background Studies Strategic Housing Land Availability Assessment Page 151	Identifies sites with potential for housing; assesses their housing potential; and assesses when they are likely to be developed. It includes sites that have been Availability Assessment (SHLAA) submitted to the Council by landowners and organisations, for consideration as to their development potential. It identifies sites with potential for housing; assesses their housing potential; and assesses when (Base date March 2009) they are likely to be developed. The SHLAA looks at whether the sites are deliverable (i.e. available, suitable for development, and likely to come forward in a reasonable timescale) and developable. However the SHLAA does not allocate sites for development; rather it informs the preparation of the documents that do (i.e.SADPD). It covers the period April 2009 to March 2024 broken down into three 5 year time bands (2009-2014; 2014-2019 and 2019-2024). The objective of the document is also to	Reason for Change: Due to the publication of the NPPF which replaces the previous suite of PPGs and PPSs. SA/SEA Implications: There are no SA/SEA implications

Proposed Modification/Change Reference Number	Section/page number/para/Policy	Proposed Modification	Reason for modification and SA/SEA Implications
		inform subsequent allocation of sites in the SADPD, and to inform the plan, monitor and manage approach to provision of housing land and the Council's assessment of a five year supply of deliverable sites as <u>was previously</u> required by PPS3, <u>and is now required by the NPPE</u> .	
CM199	Whole Document	Remove footnotes: Infrastructure Delivery Plan (IDP) November 2011 This affects the following footnotes: 28, 31, 34 & 37	Reason for Change: To reflect the fact that the IDP is a living document that will change as new information becomes available. SA/SEA Implications: There are no SA/SEA implications

4.0 ADDITIONAL AND REVISED APPRAISAL WORK

Table 2- Appraisal of Policy CP1

<p>The presumption in favour of sustainable development is central to the Government’s approach to planning as expressed by the National Planning Policy Framework. Core Policy CP1 below embeds this policy in the development plan.</p>			
<p><u>Policy CP1</u></p>			
<p><u>Presumption in Favour of Sustainable Development</u></p>			
<p><u>A positive approach to considering development proposals will be taken that reflects the presumption in favour of sustainable development contained in the National Planning Policy Framework. Where appropriate, the Council will work proactively with applicants jointly to seek solutions which mean that proposals can be approved wherever possible, and to secure development that improves the economic, social and environmental conditions within the area.</u></p>			
<p><u>The development plan is the statutory starting point for decision making. Planning applications that accord with the policies in the development plan for Bracknell Forest (including, where relevant, policies in neighbourhood development plans) will be approved without delay, unless material considerations indicate otherwise.</u></p>			
<p><u>Where there are no policies relevant to the application or relevant policies are out of date at the time of making the decision then permission will be granted unless material considerations indicate otherwise – taking into account whether:</u></p>			
<ul style="list-style-type: none"> • <u>Any adverse impacts of granting permission would significantly and demonstrably outweigh the benefits, when assessed against the policies in the National Planning Policy Framework taken as a whole; or</u> • <u>Specific policies in that Framework indicate that development should be restricted.</u> 			
<p>Sustainability Objective</p>	<p>Assessment of effect</p>	<p>Commentary</p>	<p>Optimising/Mitigation</p>

SA1 To meet local housing needs by ensuring that everyone has the opportunity to live in a decent, sustainably constructed and affordable home	++	<p>This policy requires all developments to be considered in a positive manner that reflects the presumption in favour of sustainable development and seeks to secure development that improves the economic, social and environmental conditions within the area. As an overarching policy, this is likely to bring about significant positive benefits in relation this SA Objective whereby affordable housing will be sought according to the policy threshold.</p> <p>Likelihood of effect: Possible Spatial Scale: Borough wide. Temporary/Permanent: Permanent. Short/Medium/Long term: Short/Med/Long term.</p>	None required.
SA2 To reduce the risk of flooding and harm to people, property and the environment	++	<p>This policy requires all developments to be considered in a positive manner that reflects the presumption in favour of sustainable development and seeks to secure development that improves the economic, social and environmental conditions within the area. As an overarching policy, this is likely to bring about significant positive benefits in relation this SA Objective whereby sustainable development will not be located within any areas prone to flooding and would be able to mitigate its own surface water needs through SuDS.</p> <p>Likelihood of effect: Possible Spatial Scale: Borough wide. Temporary/Permanent: Permanent. Short/Medium/Long term: Short/Med/Long term.</p>	None required.
SA3 To protect and enhance human health and wellbeing	++	<p>This policy requires all developments to be considered in a positive manner that reflects the presumption in favour of sustainable development and seeks to secure development that improves the economic, social and environmental conditions within the area. As an overarching policy, this is likely to bring about significant positive benefits in relation to the health and wellbeing of the borough.</p>	None required.

		<p>Likelihood of effect: Possible Spatial Scale: Borough wide. Temporary/Permanent: Permanent. Short/Medium/Long term: Short/Med/Long term.</p>	
SA4 To reduce poverty and social exclusion	++	<p>This policy requires all developments to be considered in a positive manner that reflects the presumption in favour of sustainable development and seeks to secure development that improves the economic, social and environmental conditions within the area. As an overarching policy, this is likely to bring about significant positive benefits in relation to the poverty and social exclusion as Sustainable Development will not worsen and could even improve on existing concerns.</p> <p>Likelihood of effect: Possible Spatial Scale: Borough wide. Temporary/Permanent: Permanent. Short/Medium/Long term: Short/Med/Long term.</p>	None required.
SA5 To raise educational achievement levels	++	<p>This policy requires all developments to be considered in a positive manner that reflects the presumption in favour of sustainable development and seeks to secure development that improves the economic, social and environmental conditions within the area. As an overarching policy, this is likely to bring about significant positive benefits in relation to the boroughs educational achievement levels.</p> <p>Likelihood of effect: Possible Spatial Scale: Borough wide. Temporary/Permanent: Permanent. Short/Medium/Long term: Short/Med/Long term.</p>	None required.
SA6 To reduce and prevent crime and the fear of crime	++	<p>This policy requires all developments to be considered in a positive manner that reflects the presumption in favour of sustainable development and seeks to secure development that improves the economic, social and environmental conditions within the area. As an overarching policy, this is likely to bring about significant positive benefits in relation to the poverty and social exclusion as Sustainable Development will not worsen and could even improve on existing concerns.</p> <p>Likelihood of effect: Possible</p>	None required.

		<p>Spatial Scale: Borough wide. Temporary/Permanent: Permanent. Short/Medium/Long term: Short/Med/Long term.</p>	
SA7 To create and sustain vibrant and locally distinctive communities	++	<p>This policy requires all developments to be considered in a positive manner that reflects the presumption in favour of sustainable development and seeks to secure development that improves the economic, social and environmental conditions within the area. As an overarching policy, this is likely to bring about significant positive benefits in relation this SA Objective in so far as retaining the distinctiveness of the existing local communities.</p> <p>Likelihood of effect: Possible Spatial Scale: Borough wide. Temporary/Permanent: Permanent. Short/Medium/Long term: Short/Med/Long term.</p>	None required.
SA8 To provide accessible essential services and facilities	++	<p>This policy requires all developments to be considered in a positive manner that reflects the presumption in favour of sustainable development and seeks to secure development that improves the economic, social and environmental conditions within the area. As an overarching policy, this is likely to bring about significant positive benefits as in-order to be sustainable development should be placed in locations where it is either accessible to services and if not would be able to adequately mitigate any concerns through scheduled improvements.</p> <p>Likelihood of effect: Possible Spatial Scale: Borough wide. Temporary/Permanent: Permanent. Short/Medium/Long term: Short/Med/Long term.</p>	None required.
SA9 To make opportunities for culture, leisure and	++	<p>This policy requires all developments to be considered in a positive manner that reflects the presumption in favour of sustainable development and seeks to secure development that improves the</p>	None required.

recreation readily accessible		<p>economic, social and environmental conditions within the area. As an overarching policy, this is likely to bring about significant positive benefits in relation this SA Objective. A sustainable development should be located close to existing recreational and/or leisure facilities or would provide such provisions.</p> <p>Likelihood of effect: Possible Spatial Scale: Borough wide. Temporary/Permanent: Permanent. Short/Medium/Long term: Short/Med/Long term.</p>	
SA10 To encourage urban renaissance by improving efficiency in land use, design and layout. This includes making best use of previously developed land in meeting future development needs	++	<p>This policy requires all developments to be considered in a positive manner that reflects the presumption in favour of sustainable development and seeks to secure development that improves the economic, social and environmental conditions within the area. As an overarching policy, this is likely to bring about significant positive benefits in relation this SA Objective. In order to be sustainable development making the best use of land and encouraging urban renaissance would be a priority.</p> <p>Likelihood of effect: Possible Spatial Scale: Borough wide. Temporary/Permanent: Permanent. Short/Medium/Long term: Short/Med/Long term.</p>	None required.
SA11 To maintain air quality and improve where possible	++	<p>This policy requires all developments to be considered in a positive manner that reflects the presumption in favour of sustainable development and seeks to secure development that improves the economic, social and environmental conditions within the area. As an overarching policy, this is likely to bring about significant positive benefits in relation this SA Objective as existing concerns will have to be addressed through appropriate mitigation.</p> <p>Likelihood of effect: Possible Spatial Scale: Borough wide. Temporary/Permanent: Permanent.</p>	None required.

		Short/Medium/Long term: Short/Med/Long term.	
SA12 To address the causes of climate change through reducing emissions of greenhouse gases, and ensure Bracknell Forest is prepared for associated impacts	++	This policy requires all developments to be considered in a positive manner that reflects the presumption in favour of sustainable development and seeks to secure development that improves the economic, social and environmental conditions within the area. As an overarching policy, this is likely to bring about significant positive benefits in relation this SA Objective as development would have to accommodate itself and mitigate its effect upon climate change. Likelihood of effect: Possible Spatial Scale: Borough wide. Temporary/Permanent: Permanent. Short/Medium/Long term: Short/Med/Long term.	None required.
SA13 To conserve and enhance the Borough's biodiversity	++	This policy requires all developments to be considered in a positive manner that reflects the presumption in favour of sustainable development and seeks to secure development that improves the economic, social and environmental conditions within the area. As an overarching policy, this is likely to bring about significant positive benefits in relation this SA Objective. Sustainable development would seek to avoid where necessary sensitive biodiversity and enhance where possible. Likelihood of effect: Possible Spatial Scale: Borough wide. Temporary/Permanent: Permanent. Short/Medium/Long term: Short/Med/Long term.	None required.
SA14 To protect and enhance where possible the Borough's characteristic countryside and its	++	This policy requires all developments to be considered in a positive manner that reflects the presumption in favour of sustainable development and seeks to secure development that improves the economic, social and environmental conditions within the area. As an overarching policy, this is likely to bring about significant positive	None required.

historic environment in urban and rural areas.		<p>benefits in relation this SA Objective. Sustainable development would seek to avoid sensitive countryside and historic locations and enhance where possible.</p> <p>Likelihood of effect: Possible Spatial Scale: Borough wide. Temporary/Permanent: Permanent. Short/Medium/Long term: Short/Med/Long term.</p>	
SA15 To improve travel choice and accessibility, reduce the need to travel by car and shorten the length and duration of journeys	++	<p>This policy requires all developments to be considered in a positive manner that reflects the presumption in favour of sustainable development and seeks to secure development that improves the economic, social and environmental conditions within the area. As an overarching policy, this is likely to bring about significant positive benefits in relation this SA Objective. In order to be sustainable development would be located so that it is accessible and if there were concerns would mitigate itself.</p> <p>Likelihood of effect: Possible Spatial Scale: Borough wide. Temporary/Permanent: Permanent. Short/Medium/Long term: Short/Med/Long term.</p>	None required.
SA16 To sustainably use and re-use both renewable and non-renewable resources	++	<p>This policy requires all developments to be considered in a positive manner that reflects the presumption in favour of sustainable development and seeks to secure development that improves the economic, social and environmental conditions within the area. As an overarching policy, this is likely to bring about significant positive benefits in relation this SA Objective.</p> <p>Likelihood of effect: Possible Spatial Scale: Borough wide. Temporary/Permanent: Permanent. Short/Medium/Long term: Short/Med/Long term.</p>	None required.

SA17 To address the waste hierarchy by: minimising waste as a priority, reuse, then recycling, composting or energy recovery	++	<p>This policy requires all developments to be considered in a positive manner that reflects the presumption in favour of sustainable development and seeks to secure development that improves the economic, social and environmental conditions within the area. As an overarching policy, this is likely to bring about significant positive benefits in relation this SA Objective.</p> <p>Likelihood of effect: Possible Spatial Scale: Borough wide. Temporary/Permanent: Permanent. Short/Medium/Long term: Short/Med/Long term.</p>	None required.
SA18 To maintain and improve water quality in the Borough's watercourses and to achieve sustainable water resource management	++	<p>This policy requires all developments to be considered in a positive manner that reflects the presumption in favour of sustainable development and seeks to secure development that improves the economic, social and environmental conditions within the area. As an overarching policy, this is likely to bring about significant positive benefits in relation this SA Objective. In order to be sustainable development would manage or improve where necessary on-site water resource management.</p> <p>Likelihood of effect: Possible Spatial Scale: Borough wide. Temporary/Permanent: Permanent. Short/Medium/Long term: Short/Med/Long term.</p>	None required.
SA19 To maintain and improve soil quality	++	<p>This policy requires all developments to be considered in a positive manner that reflects the presumption in favour of sustainable development and seeks to secure development that improves the economic, social and environmental conditions within the area. As an overarching policy, this is likely to bring about significant positive benefits in relation this SA Objective whereby existing land contamination concerns would have to be remediated.</p> <p>Likelihood of effect: Possible Spatial Scale: Borough wide.</p>	None required.

		Temporary/Permanent: Permanent. Short/Medium/Long term: Short/Med/Long term.	
SA20 To increase energy efficiency and the proportion of energy generated from renewable sources in the Borough	++	This policy requires all developments to be considered in a positive manner that reflects the presumption in favour of sustainable development and seeks to secure development that improves the economic, social and environmental conditions within the area. As an overarching policy, this is likely to bring about significant positive benefits in relation this SA Objective as development would have to meet with national and local renewable energy targets. Likelihood of effect: Possible Spatial Scale: Borough wide. Temporary/Permanent: Permanent. Short/Medium/Long term: Short/Med/Long term.	None required.
SA21 To ensure high and stable levels of employment	++	This policy requires all developments to be considered in a positive manner that reflects the presumption in favour of sustainable development and seeks to secure development that improves the economic, social and environmental conditions within the area. As an overarching policy, this is likely to bring about significant positive benefits in relation this SA Objective. In order to be sustainable development sites would be located so that they are accessible to existing employment sites or would provide employment provisions within a mixed use development. Likelihood of effect: Possible Spatial Scale: Borough wide. Temporary/Permanent: Permanent. Short/Medium/Long term: Short/Med/Long term.	None required.
SA22 To sustain economic growth and competitiveness of the Borough	++	This policy requires all developments to be considered in a positive manner that reflects the presumption in favour of sustainable development and seeks to secure development that improves the economic, social and environmental conditions within the area. As an	None required.

		<p>overarching policy, this is likely to bring about significant positive benefits in relation this SA Objective. In order to be sustainable development sites would be located so that they are accessible to existing employment sites or would provide employment provisions within a mixed use development. This would in turn increase or at least maintain existing economic growth.</p> <p>Likelihood of effect: Possible Spatial Scale: Borough wide. Temporary/Permanent: Permanent. Short/Medium/Long term: Short/Med/Long term.</p>	
SA23 To encourage 'smart' economic growth	++	<p>This policy requires all developments to be considered in a positive manner that reflects the presumption in favour of sustainable development and seeks to secure development that improves the economic, social and environmental conditions within the area. As an overarching policy, this is likely to bring about significant positive benefits in relation this SA Objective</p> <p>Likelihood of effect: Possible Spatial Scale: Borough wide. Temporary/Permanent: Permanent. Short/Medium/Long term: Short/Med/Long term.</p>	None required.
SA24 To develop and maintain a skilled workforce by developing the opportunities for everyone to acquire the skills needed to find work	++	<p>This policy requires all developments to be considered in a positive manner that reflects the presumption in favour of sustainable development and seeks to secure development that improves the economic, social and environmental conditions within the area. As an overarching policy, this is likely to bring about significant positive benefits in relation this SA Objective. In order to be sustainable sites would be located close to existing schools are would provide educational facilities on-site.</p> <p>Likelihood of effect: Possible</p>	None required.

		Spatial Scale: Borough wide. Temporary/Permanent: Permanent. Short/Medium/Long term: Short/Med/Long term.	
<p>Summary of Assessment</p> <p>The overarching policy was recommended to ensure full conformity with the NPPF and to help ensure that sustainability criteria are central to all decision making within the Site Allocations DPD. As the policy seeks to secure development that improves the economic, social and environmental conditions within the area the overall conclusion is that significant positive effects would be achieved against all 24 of the Sustainability Objectives. Therefore no mitigation and/or enhancement measures are recommended.</p>			

Table3- Appraisal of amended Policy SA1 (Land North of Eastern Road, Bracknell)

Policy SA1- Previously developed land in defined settlements (Land North of Eastern Road, Bracknell).			
Land North of Eastern Road, Bracknell has been expanded so that it is proposed to incorporate <u>Greenwood House</u> . This takes the sites estimated capacity from 325 to 432. As a result of the site expansion and inclusion of a site not previously appraised the previous appraisal for the smaller site has been revisited below. Any changes to the previous sites appraisal are written in <u>Bold and underlined</u> text.			
Sustainability Objective	Assessment of effect	Commentary	Optimising/Mitigation
SA1 To meet local housing needs by ensuring that everyone has the opportunity to live in a decent, sustainably constructed and affordable home	++	<p>Could provide up to 325 <u>425</u> dwellings</p> <p>2.9 <u>3.86</u> Hectares</p> <p>The site can provide a level of housing that can incorporate a number of affordable houses.</p> <p>As the site could provide affordable housing it is considered to have a significant positive effect upon this SA objective.</p> <p>Likelihood of effect: Possible Spatial Scale: Borough wide. Temporary/Permanent: Permanent. Short/Medium/Long term: Short/Med/Long term.</p>	Housing need according to Bracknell Forest HMA is to provide affordable housing. The highest need is for social rented accommodation.

SA2 To reduce the risk of flooding and harm to people, property and the environment	0	Not located within a SFRA Flood Zone 2 or 3.	Design of the development would have to take into account SuDs and provide suitable surface and foul water drainage. Formal submission should include a Flood Risk Assessment.
SA3 To protect and enhance human health and wellbeing	1	The site is within 570m of a GP surgery and 210m of a dentists. The site is served by a 30 mins frequency bus service (155) to Bracknell Town Centre. Within the Town centre there is a Health Centre. Can access Reading Royal Berkshire Hospital by car within 30 mins. According to the IMD 2007 there are no know concerns regarding health. Adequate access to local health provisions. It is unclear whether or not the existing health care provisions have the capacity to accommodate 325 dwellings. Therefore the effect if any will not be known until implementation.	
SA4 To reduce poverty and social exclusion	?	There are some poverty and exclusion concerns highlighted by the IMD 2007. It is unclear at this stage what effect the development of this site may have upon these concerns and therefore this SA objective.	
SA5 To raise educational	0	The site could potentially accommodate 325 425 dwellings.	The LEA has a duty to provide school places. There will be either sufficient

achievement levels		The site falls within the catchment of Hollyspring Primary School and Garth Hill Secondary school. Overall the site would have no impact upon this SA Objective as the site can accommodate itself.	capacity or a contribution will be required.
SA6 To reduce and prevent crime and the fear of crime	0	IMD data shows no concerns regarding crime. Overall there is no effect upon this SA objective.	
SA7 To create and sustain vibrant and locally distinctive communities	+	The site is currently an employment area. Development on this site is not considered to affect the distinctiveness of the existing community therefore it will be retained. A development on this site would provide residential accommodation close to the town centre. Likelihood of effect: Likely Spatial Scale: Site specific. Temporary/Permanent: Permanent. Short/Medium/Long term: Short/Med/Long term.	
SA8 To provide accessible essential services and facilities	++	The site is considered accessible to essential services by foot. The town centre bus and railway stations are within walking distance. Therefore this site would have a significant positive effect upon this SA objective. Likelihood of effect: Likely Spatial Scale: Site specific. Temporary/Permanent: Permanent. Short/Medium/Long term: Short/Med/Long term.	

SA9 To make opportunities for culture, leisure and recreation readily accessible	+	<ul style="list-style-type: none"> • Within 0-2 mins car journey of Parks and Gardens. • Within 6-8 mins walking distance of Amenity Space. • Within 0-2 mins car journey of Natural & Semi-Natural Greenspaces. • Within 18-20 mins walk of Natural and Semi-Natural Greenspaces. • Within 10-12 mins walk of Urban Woodlands. • Within 2-4 mins walk of Provisions for Children and Young People. • Within 0-2 mins car journey of outdoors sports facilities. • Within 2-4 mins walk of Children's Play Areas. • Within 2-4 mins car journey of Built Sports Facilities. <p>The site is well located within a range of facilities as to satisfy this SA objective. Therefore this site would have a positive impact upon this SA objective.</p> <p>Likelihood of effect: Likely Spatial Scale: Site specific. Temporary/Permanent: Permanent. Short/Medium/Long term: Short/Med/Long term.</p>	

SA10 To encourage urban renaissance by improving efficiency in land use, design and layout. This includes making best use of previously developed land in meeting future development needs	+	<p>The site is located within a defined settlement where development is considered acceptable in principle. This site is considered to be previously developed land and therefore the first choice of land for development, and accords with point 2 of Core Strategy Policy CS2 (Locational Principles for Development). For this reason the site scored positively (+) against SA Objective 10 (Urban Renaissance).</p> <p>Likelihood of effect: Likely Spatial Scale: Site specific. Temporary/Permanent: Permanent. Short/Medium/Long term: Short/Med/Long term.</p>	
SA11 To maintain air quality and improve where possible	?	There are AQMA designations at Downshire Way and Bagshot Road. Strategically this site is linked to these roads. An AQMA action plan is being drawn up. However any likely effects will not be known until further work is carried out.	
SA12 To address the causes of climate change through reducing emissions of greenhouse gases, and ensure Bracknell Forest is prepared for associated impacts	0	Any development would have to be designed so that it reduces its carbon dioxide emissions and meets with current CSH or BREEAM standards.	<p>SuD's would be required at the Development Management stage.</p> <p>Core Strategy policies CS10 and CS12 are to be considered.</p>
SA13 To conserve and enhance the Borough's biodiversity	+/-	TPO trees on site. Within 5km of SPA. Commercial buildings on site. It is unlikely that they would house bats. However development of the site is	<p>Potential to improve biodiversity over and above what value it currently has.</p> <p>SPA mitigation sought via the Thames</p>

		<p>likely to have some adverse impact upon biodiversity. There is also the opportunity to increase the biodiversity value of the site. Therefore this site is likely to have both a positive and negative impact upon this SA objective.</p> <p>Likelihood of effect: Possible. Spatial Scale: Site specific. Temporary/Permanent: Permanent. Short/Medium/Long term: Short/Med/Long term.</p>	<p>Basin Heaths SPA Avoidance and Mitigation Strategy.</p> <p>Appropriate ecological surveys required.</p>
SA14 To protect and enhance where possible the Borough's characteristic countryside and its historic environment in urban and rural areas.	0	<p>Previously developed land. Located within an employment area. No listed Buildings. TPO trees on-site. No other site designations other than employment. Not within a character area.</p> <p>Development of this site for residential purposes is not likely to have an impact upon the character of the area. There are TPO trees on site but they take up a small area of the site and could easily be incorporated into any master planning.</p>	Retain protected trees
SA15 To improve travel choice and accessibility, reduce the need to travel by car and shorten the length and duration of journeys	++	<p>The site is located within walking distance from the Town Centre, bus and railway stations. The 155 is a 30min frequency bus to and from the Town Centre. The car is not necessarily going to be the preferred mode of transport. For these reasons the site is considered to have a significant positive effect upon this SA objective.</p> <p>Likelihood of effect: Likely</p>	

		Spatial Scale: Site specific. Temporary/Permanent: Permanent. Short/Medium/Long term: Short/Med/Long term.	
SA16 To sustainably use and re-use both renewable and non-renewable resources	?	<p>Policy requirements would allow for the development to have a positive impact upon this objective to sustainably use and re-use renewable and non-renewable resources.</p> <p>The site contains an area of past mineral working. Further work required to establish the likely outcomes.</p>	<p>Core Strategy policies CS10, CS11 and CS12 are to be considered.</p> <p>Mineral surveys required.</p>
SA17 To address the waste hierarchy by: minimising waste as a priority, reuse, then recycling, composting or energy recovery	?	<p>The site is located on top of a R3 classification (risk unknown) landfill site. A landfill risk assessment is required to determine the likely outcome.</p> <p>The effects of waste management depend on how policy is implemented.</p>	Landfill gas risk assessment required.
SA18 To maintain and improve water quality in the Borough's watercourses and to achieve sustainable water resource management	0	<p>The site does not fall within a Groundwater Source or Groundwater Protection Area.</p> <p>Therefore a well designed development would have no overall impact upon this SA objective.</p>	

SA19 To maintain and improve soil quality	?	<p>The site has a Landscape Classification as urban and is therefore not considered to be versatile agricultural land.</p> <p>However due to its location the site may have contaminated land present. Further work may need to be carried out.</p>	Contaminated land survey.
SA20 To increase energy efficiency and the proportion of energy generated from renewable sources in the Borough	+	<p>Development of this site would provide the opportunity to provide renewable energy generation and maybe a Combined Heat and Power Scheme.</p> <p>Likelihood of effect: Likely. Spatial Scale: Borough wide. Temporary/Permanent: Permanent. Short/Medium/Long term: Short/Med/Long term.</p>	Policies CS10 and CS12 are to be considered.
SA21 To ensure high and stable levels of employment	+	<p>Development of this site would result in the loss of employment land. However the Employment Land Review (December 2009) identified that there is an oversupply of office space within the Borough.</p> <p>It sets out that the Eastern Estate has the weakest identity and has already seen some parcels of land lost to residential development, and that the frontage would be suitable for other uses including housing, provided that integrity of the remaining core of the site was retained.</p> <p>Taking this into account this site is considered to have a positive effect.</p> <p>Likelihood of effect: Likely</p>	Consider the Employment Land Review recommendation.

		Spatial Scale: Borough wide. Temporary/Permanent: Permanent. Short/Medium/Long term: Short/Med/Long term.	
SA22 To sustain economic growth and competitiveness of the Borough	+	It is likely that this site will have a positive impact upon this SA Objective. Likelihood of effect: Likely Spatial Scale: Borough wide. Temporary/Permanent: Permanent. Short/Medium/Long term: Short/Med/Long term.	
SA23 To encourage 'smart' economic growth		Smart Growth could be built into the master plan for the development. However how successful this would be could not be assessed at this stage.	
SA24 To develop and maintain a skilled workforce by developing the opportunities for everyone to acquire the skills needed to find work	?	The target is to significantly raise people with level 3 qualifications to level 4. What effect a development of this size could have upon this objective would not be known at this stage.	
Summary of Assessment The inclusion of a new site within the Land North of Eastern Road site could have resulted in significant changes to the original appraisal and for this reason the site was reappraised. However as result of the revised appraisal there were no changes to the original scores against the 24 sustainability objectives. The site was and is still considered to be a sustainable location for development.			

Table 4- Appraisal of amended Policy SA2 (Land North of Peacock Lane, Bracknell)

Policy SA2- Other land within defined settlements (Land North of Peacock Lane, Bracknell).			
Land North of Peacock Lane, Bracknell has been expanded so that it is proposed to incorporate the Jennetts Park Business Area. This takes the sites estimated capacity from 147 to 182. As a result of the site expansion and inclusion of a site not previously appraised the previous appraisal for the smaller site has been revisited below. Any changes to the previous sites appraisal are written in <u>Bold and underlined</u> text.			
Sustainability Objective	Assessment of effect	Commentary	Optimising/Mitigation
SA1 To meet local housing needs by ensuring that everyone has the opportunity to live in a decent, sustainably constructed and affordable home	++	<p>Could provide 447 <u>182</u> Dwellings 2.5 Hectares Could provide sustainably constructed housing.</p> <p>Could provide a level of housing including affordable housing. Therefore the score is ++.</p> <p>Likelihood of effect: Likely Spatial Scale: Borough wide. Temporary/Permanent: Permanent. Short/Medium/Long term: Short/Med/Long term.</p>	Housing need according to Bracknell Forest HMA is to provide affordable housing. The highest need is for social rented accommodation.
SA2 To reduce the risk of flooding and harm to people, property and the environment	0	<p>Not located within a SFRA Flood Zone 2 or 3. Therefore no overall impact upon this SA objective</p>	<p>Design of the development would have to take into account SuDs and provide suitable surface and foul water drainage. Formal submission could require a Flood Risk Assessment.</p>

SA3 To protect and enhance human health and wellbeing	1	<p>Adequate access to local health provisions by car. However by foot GP surgeries are beyond reasonable walking distance. It is not known at this time whether a GP surgery will be provided at Jennett's Park.</p> <p>Access to Reading Royal Berks Hospital by car takes approx 30mins.</p> <p>No. 108 bus provides a 15-30 mins frequency service to and from the Town Centre.</p> <p>According to the IMD 2007 there are no known concerns against Health Deprivation & Disability. It is unclear whether or not the existing health care provisions have the capacity to accommodate 147 dwellings. Therefore the effect if any will not be known until implementation.</p>	
SA4 To reduce poverty and social exclusion	0	No poverty and exclusion concerns highlighted by the IMD 2007.	
SA5 To raise educational achievement levels	0	<p>The site could potentially accommodate 447 182 dwellings.</p> <p>There is a school to be built at Jennetts Park. It is likely that the school will be able to accommodate the additional 447 182 dwellings off Peacock Lane.</p> <p>Overall the site would have no impact upon this SA Objective as the site can accommodate itself.</p> <p>Likelihood of effect: Likely</p> <p>Spatial Scale: Borough wide.</p> <p>Temporary/Permanent: Permanent.</p> <p>Short/Medium/Long term: Short/Med/Long term.</p>	The LEA has a duty to provide places. There will either be sufficient capacity or contributions will be required.

SA6 To reduce and prevent crime and the fear of crime	0	IMD data shows no crime concerns. However development can design out crime. Therefore overall no impact upon this SA Objective.	
SA7 To create and sustain vibrant and locally distinctive communities	+	Development of the site would not affect the distinctiveness of any existing communities. The site would integrate into Jennetts Park a recently developed site which has a planned local centre with facilities. Likelihood of effect: Likely. Spatial Scale: Site specific. Temporary/Permanent: Permanent. Short/Medium/Long term: Short/Med/Long term.	
SA8 To provide accessible essential services and facilities	+	The site is considered accessible to essential services by car or bus. Buses link Jennetts Park with Bracknell every 15mins. There is the potential for additional services for example a shop to be accommodated at Jennetts Park. Therefore this site would have a positive effect upon this SA Objective. Likelihood of effect: Likely. Spatial Scale: Site specific. Temporary/Permanent: Permanent. Short/Medium/Long term: Short/Med/Long term.	
SA9 To make opportunities for culture, leisure and recreation readily accessible	+	<ul style="list-style-type: none"> • Within 4-6 mins car journey of Parks and Gardens. • Not Within 14-16 mins walking distance of Amenity Greenspace. • Within 0-2 mins car journey of Natural & Semi-Natural Greenspaces. • Within 16-18 mins walk of Natural and Semi-Natural Greenspaces. 	

		<ul style="list-style-type: none"> • Within 2-4 mins walk of Urban Woodlands. • Within 8-10 mins walk of Provisions for Children and Young People. • Within 0-2 mins car journey of outdoors sports facilities. • Within 10-12 mins walk of Childrens Play Areas. • Within 0-4 mins car journey of Built Sports Facilities. <p>The site is well located within a range of facilities as to satisfy this SA objective. Therefore this site would have a positive impact upon this SA objective. Likelihood of effect: Likely. Spatial Scale: Site specific. Temporary/Permanent: Permanent. Short/Medium/Long term: Short/Med/Long term</p>	
SA10 To encourage urban renaissance by improving efficiency in land use, design and layout. This includes making best use of previously developed land in meeting future development needs	-	<p>This site is considered to be other land within defined settlements however it is greenfield land. This may not be the best use of land and for this reason the results in a negative score against this SA objective.</p> <p>Likelihood of effect: Likely. Spatial Scale: Site specific. Temporary/Permanent: Permanent. Short/Medium/Long term: Short/Med/Long term</p>	
SA11 To maintain air quality and improve where possible	?	<p>There are AQMA designations at Downshire Way and Bagshot Road. Strategically this site is linked to these roads. An AQMA action plan is being drawn up. However any likely effects will not be known until further work is carried out.</p>	
SA12 To address the causes of climate	0	<p>Any development would have to be designed so that it reduces its carbon dioxide emissions and meets with</p>	<p>SuD's may be required at the Development Management stage.</p>

change through reducing emissions of greenhouse gases, and ensure Bracknell Forest is prepared for associated impacts		current CSH or BREEAM standards. Overall the site would accommodate itself.	Policies CS10, CS11 and CS12 are to be considered.
SA13 To conserve and enhance the Borough's biodiversity	+/-	Potential for reptiles Located within 5km of SPA Any development of the site is likely to have a negative impact upon biodiversity. However development of the site would provide the opportunity to enhance the sites biodiversity. Likelihood of effect: Possible. Spatial Scale: Site specific. Temporary/Permanent: Permanent. Short/Medium/Long term: Short/Med/Long term	SPA mitigation sought via Thames Basin Heaths SPA Avoidance and Mitigation Strategy. Appropriate ecological surveys are required.
SA14 To protect and enhance where possible the Borough's characteristic countryside and its historic environment in urban and rural areas.	-	Other land within defined settlements. Located within newly created settlement. Adjacent to Peacock Lane PH (Grade II Listed) No other site designations on site. Site not located within a Character Area. At this stage it is not clear that development of the site will not have an adverse impact upon the setting of the adjoining listed building. For this reason the sites scores a minor negative score. Likelihood of effect: Possible. Spatial Scale: Site specific. Temporary/Permanent: Permanent. Short/Medium/Long term: Short/Med/Long term	Development should respect the setting of the adjoining listed building (Peacock Farm PH).

SA15 To improve travel choice and accessibility, reduce the need to travel by car and shorten the length and duration of journeys	+/-	<p>The site has good bus links with the town centre. The 108 links the site with the town centre every 15mins. The site also has good cycle links with the town centre.</p> <p>However there is no bus service to Wokingham and the site as it stands has no shops although these are planned.</p> <p>Likelihood of effect: Likely. Spatial Scale: Site specific. Temporary/Permanent: Permanent. Short/Medium/Long term: Short/Med/Long term</p>	
SA16 To sustainably use and re-use both renewable and non-renewable resources	+	<p>Policy requirements would allow for the development to have a positive impact upon this objective to sustainably use and re-use renewable and non-renewable resources.</p> <p>No known mineral sources.</p> <p>Likelihood of effect: Likely. Spatial Scale: Borough wide. Temporary/Permanent: Permanent. Short/Medium/Long term: Short/Med/Long term</p>	Policies CS10, CS11 and CS12 are to be considered.
SA17 To address the waste hierarchy by: minimising waste as a priority, reuse, then recycling, composting or energy recovery	I	<p>The site is located 188m from an R4 classified landfill site.</p> <p>According to the EA it is unlikely that landfill gas will present a risk to development.</p> <p>The effects of waste management depend on how policy is implemented.</p>	
SA18 To maintain and improve water quality in the Borough's watercourses and to achieve sustainable water resource	0	<p>The site does not fall within a Groundwater Source or Groundwater protection area.</p> <p>Therefore a well designed development would have no overall impact upon this SA objective.</p>	SuDs should be a consideration at the design stage.

management			
SA19 To maintain and improve soil quality	0	The site has a Landscape Classification as grade 3. Grade 3 is split into 3a and 3b. If the land is 3b then the site could accept development. If the site is 3a then development may not be acceptable. However the site has planning permission for commercial units and a road has already been built on the site. Therefore it is unlikely that the land would be of a quality to sustain agriculture. Therefore no overall impact upon this SA objective.	The site could have contaminated land due to the nature of the previous use.
SA20 To increase energy efficiency and the proportion of energy generated from renewable sources in the Borough	+	Development of this site would provide the opportunity to provide renewable energy generation and maybe a District Combined Heat and Power Scheme. Likelihood of effect: Likely. Spatial Scale: Borough wide. Temporary/Permanent: Permanent. Short/Medium/Long term: Short/Med/Long term.	Policies CS10, CS11 and CS12 are to be considered.
SA21 To ensure high and stable levels of employment	+ <u>+/-</u>	Major employment sites would be easily accessible from the site. New housing would provide the opportunity to support the borough's employment and economic growth. The existing site has permission for mixed uses as part of the wider Jennetts Park redevelopment, including commercial uses (B1, B2, B8 and hotel, including provision for small business units). although this area does not form part of a protected employment area. <u>This site has been expanded to now incorporate this land.</u> The Employment Land Review sets out that there is an oversupply of offices within the Borough, however that future demand is likely to be predominately for small and medium units. Therefore, it is considered that the 0.5ha area of land, in accordance with the adopted	Retain smaller units as per the recommendation in the Employment Land Review (ELR).

		<p>masterplan (land parcel C4) should be retained for small business units use, and has been excluded from the developable area.</p> <p>Therefore this site could have a positive effect upon this SA objective. <u>As part of the site earmarked for mixed use could now be replaced with residential development this site now scores +/- as the site is well connected to existing employment uses but proposed small business units may now not be implemented.</u></p> <p>Likelihood of effect: Likely Spatial Scale: Borough wide. Temporary/Permanent: Permanent. Short/Medium/Long term: Short/Med/Long term.</p>	
SA22 To sustain economic growth and competitiveness of the Borough	+	<p>The introduction of 447 147 182 dwellings in such a location could potentially help to sustain and increase economic growth therefore the site has been scored as positive against this SA objective.</p> <p>Likelihood of effect: Possible Spatial Scale: Borough wide. Temporary/Permanent: Permanent. Short/Medium/Long term: Short/Med/Long term.</p>	
SA23 To encourage 'smart' economic growth		<p>Smart Growth could be built into the design of the development. However how successful this would be could not be assessed at this stage.</p>	
SA24 To develop and maintain a skilled workforce by developing the opportunities for everyone to acquire	?	<p>The target is to significantly raise people with level 3 qualifications to level 4.</p> <p>What affect a development of this size could have upon this objective would not be known at this stage.</p>	

the skills needed to find work			
<p>Summary of Assessment</p> <p>The inclusion of a new site within the Land North of Peacock Lane site could have resulted in significant changes to the original appraisal and for this reason the site was reappraised. All but one of the 24 sustainability objectives scores were unchanged. The one SA objective (SA 21-Employment) that did change following the expansion on the site did so as a result of losing earmarked small and medium employment units. As such the sites overall weighted score has now changed from 13 to 11. The site is still considered a sustainable location for development.</p>			

5.0 SA/SEA APPRAISAL CONCLUSION

- 5.1 The majority of the modifications have been proposed for clarity and consistency and as such do not fundamentally affect the outcome of the policy proposed or SA content. For this reason these changes listed in this report were screened out from requiring any further SA/SEA work.
- 5.2 Three modifications were considered significant in themselves as to warrant either a new appraisal and/or revisit previous site specific appraisal work. These being new policy CP1- Presumption in Favour of Sustainable Development, the amendment to Policy SA1- Previously developed land in defined settlements (Land North of Eastern Road, Bracknell) to include an expansion of the site and the amendment to Policy SA2- Other land within defined settlements (Land North of Peacock Lane, Bracknell) and expansion of the site.
- 5.3 New policy (CP1-Presumption in Favour of Sustainable Development) which included wording introduced by Government and the Inspectorate, subsequently amended, to ensure full conformity with the NPPF and to help ensure that sustainability criteria are central to all decision making within the Site Allocations DPD. The appraisal of policy CP1 resulted in an overall positive benefit when assessed against the Council's 24 Sustainability Objectives and required no mitigation and/or enhancement measures.
- 5.4 The second proposed modification to policy SA1- Land North of Eastern Road resulted in no significant changes to the original site score.
- 5.5 The third proposed modification to policy SA2 - Land North of Peacock Lane, Bracknell, resulted in a change in scoring against SA objective 21- Employment due to the loss of earmarked small/medium employment units. The change in score from (+) to (-/+) resulted in the site having an overall weighted score of 11 not 13 as previously appraised. However this score suggests that the site is a sustainable location for development and therefore no further changes and/or mitigation is needed.
